Nièvre Collaborative Cultural Platform

This project is based around the creation of a virtual hub or collaborative platform (citizens-cultural stakeholders-local govenrnment) which allows searching and posting, pooling of resources and skills, promotion of events and activities, co-development of cultural products, increase accessibility and awareness and participation across the whole territory, in particular remoter areas

Objectifs

* Fostering citizen participation in cultural activites through a participative and interactive platform allowing user input to content
* Supporting technological innovation in the creation, capture and dissemination of cultural projects
* Adding territorial value
* Diversifying the public who participate in cultural activities

Résultats attendus

* Simplified access via geo-localised thematic entries (service design)
* A n open system where the Nivernais can add their their own cultural products, works of art, skills, etc.
* Pooling of projects and activities of the county's cultural sector
* A response to the problem of mobility
* A shared space for broadcasting and distribution

Erudite

Through the ERUDITE workshops a multi-stakeholder group brainstormed, developed and defined the key project concept and transformed it into a working plan. SEROI+ indicators and vlaues for the cultural outputs have also been made.
In addtion The development of this collaborative platform has been integrated into the digital reference library labelling process carried out by the Department.
