GROW RUP

Entrepreneurship development and capacity building policies for business creation and growth in outermost regions

You are reading the 5th GROW RUP newsletter.

GROW RUP supports the creation and growth of innovative companies in the green and blue economy to reduce long-term unemployment in EU outermost regions. The project involves five EU outermost regions: Canary Islands, Reunion, Azores, Madeira and Martinique. GROW RUP learning process is conducted during the years 2017-2019.

A key element of the project are interregional site visits organised in partner regions, where partners share strategies and experiences and brainstorm with policy-makers and stakeholders on employment support measures for green and blue economy.

The present newsletter covers four local workshops that were conducted by the project partners to develop the Action Plans. The Action Plans are one of the main outcomes of the GROW RUP project.

Moreover, you will find information on the final workshop for preparation of the Action Plans which took place in La Laguna (Tenerife, Canary Islands). This workshop combined all the members of the project's consortium.

You can find the newsletter translated to French, Portuguese and Spanish in: https://www.interregeurope.eu/growrup/library/

Local Workshop Réunion

7 March of 2019 and presentation of the project in La Réunion (March 25)

Région Réunion undertook its local GROW RUP workshop the 7th of March 2019. The theme of the workshop was the blue economy: https://regionreunion.com/…/workshop-grow-rup-avec-les-acte… The GROW RUP workshop on 7 March enabled local actors in the blue and green economy to work on concrete proposals to meet the objectives of creating activities, jobs and businesses in the framework of the GROW RUP project. These conclusions fed the GROW RUP action plan for the Réunion Region. The shared action plan will then be presented to local stakeholders before presentation and validation by the European Commission.

Moreover the 25th of March the GROW RUP project and the outcomes of the regional workshop in La Réunion were presented during the Bleu Economy week: https://www.regionreunion.com/…/lancement-de-la-semaine-de-…

Local workshops Canary Islands
12 March 2019 in Gran Canaria
and 13 March 2019 in Tenerife

The Servicio Canario de Empleo undertook two local workshops to inform on the good practices learnt during the first phase of the project and to inform the Regional Action Plan (https://www.interregeurope.eu/growrup/). The Action Plans has been presented to the Secretariat and will be soon presented to the European Commission.

During the two local workshops which took place March 12 in Santa Cruz de Tenerife and the 13th in Las Palmas de Gran Canaria, the Servicio Canario de Empleo awarded the best practices on employment creation in the fields of blue and green economy identified in GROW RUP.

Local workshops Madeira

21 March 2019 in Madeira

The workshop “What wealth and what jobs can be created by the (new) professions linked to the sea?” was organized by the Instituto de Emprego da Madeira and took place the 21st of March. The event involved around 35 stakeholders and players related to blue economy. The event was the IEM's first “kick” to build their Action Plan; the regional Action Plans has been presented to the Secretariat and it will be soon presented to the European Commission.

Local workshops Azores

21 May 2019 in São Miguel

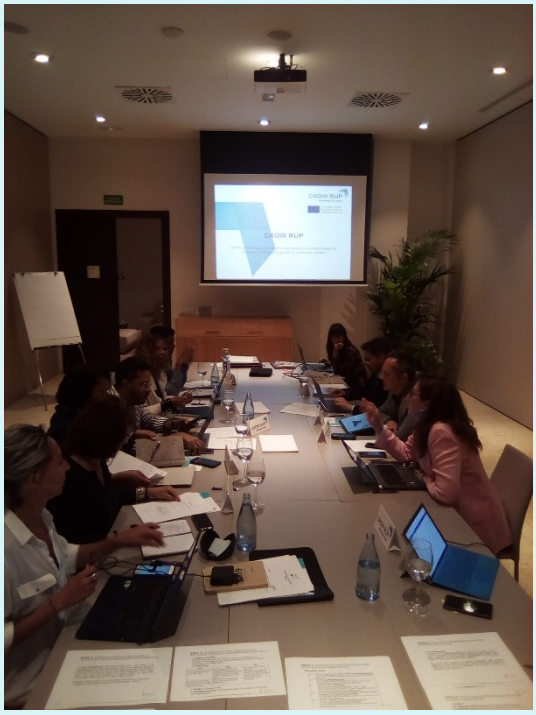
The local workshop was undertaken in Ponta Delgada. To the workshop organized by the Regional Directorate of Employment and Professional Qualification participated 38 people from different regional institutions and companies. As for the other partners the workshop has been pivotal in the elaboration of the Action Plan now presented to the Secretariat.

Workshop project – Action Plans

10-11 June 2019 in Tenerife (Canary Islands)

The GROW RUP, www.interregeurope.eu/growrup, consortium held a workshop the 10 and 11 of June in La Laguna (Tenerife, Spain) to develop the final versions of their Actions Plans. In this event the partners of the project started to define the final versions of their Action Plans and to prepare the Phase 2 of the project.

More information at: https://www.interregeurope.eu/…/…/2707/workshop-action-plan/



Upcoming events

La Martinique partner will undertake its Local Workshop. In the 6th semester of the project the Action Plans will be presented to the European Commission. Once validated they will be implemented during Phase 2 of GROW RUP project.
