## Letter of endorsement for SME POWER ACTION PLAN

Government Office for Development and European Cohesion Policy, as the Managing Authority of the Operational Programme for the Implantation of EU Cohesion Policy 2014-2020, Priority Axis 4 – Sustainable consumption and production of energy and smart grids, expressed from the outset all support to the Local energy agency Spodnje Podravje, the SME POWER project partner.

We had the opportunity to learn about the Good practices identified within SME POWER project and have been invited to the regional events as a member of Regional energy support group.

We are aware of the quality of work developed within SME POWER project as well as the results and benefits of the Action plan. The Action plan will contribute to the improvement of national policies and will support the SMEs in improving their energy efficiency and support them in energy transition. The one-stop shop (as given in the action plan) will provide much needed support to the SMEs in applying for subsidies and grants and will assure the quality of the reporting of energy savings.

In this context, we endorse the Action Plan submitted by Local energy agency Spodnje Podravje, in the context of the Interreg Europe project SME POWER.

Ljubljana, 15.7.2022

Sincerely yours,

  
Matjaž Dragar  
Action head of Managing Authority
