PHASE 2

Exchange of experience

Monitoring

Exchange of experience process

- No 'one-size-fits-all'

Different parameters influencing the process:

- History of the partnership
- Number of partners
- Duration of phase 1
- Topic addressed
-

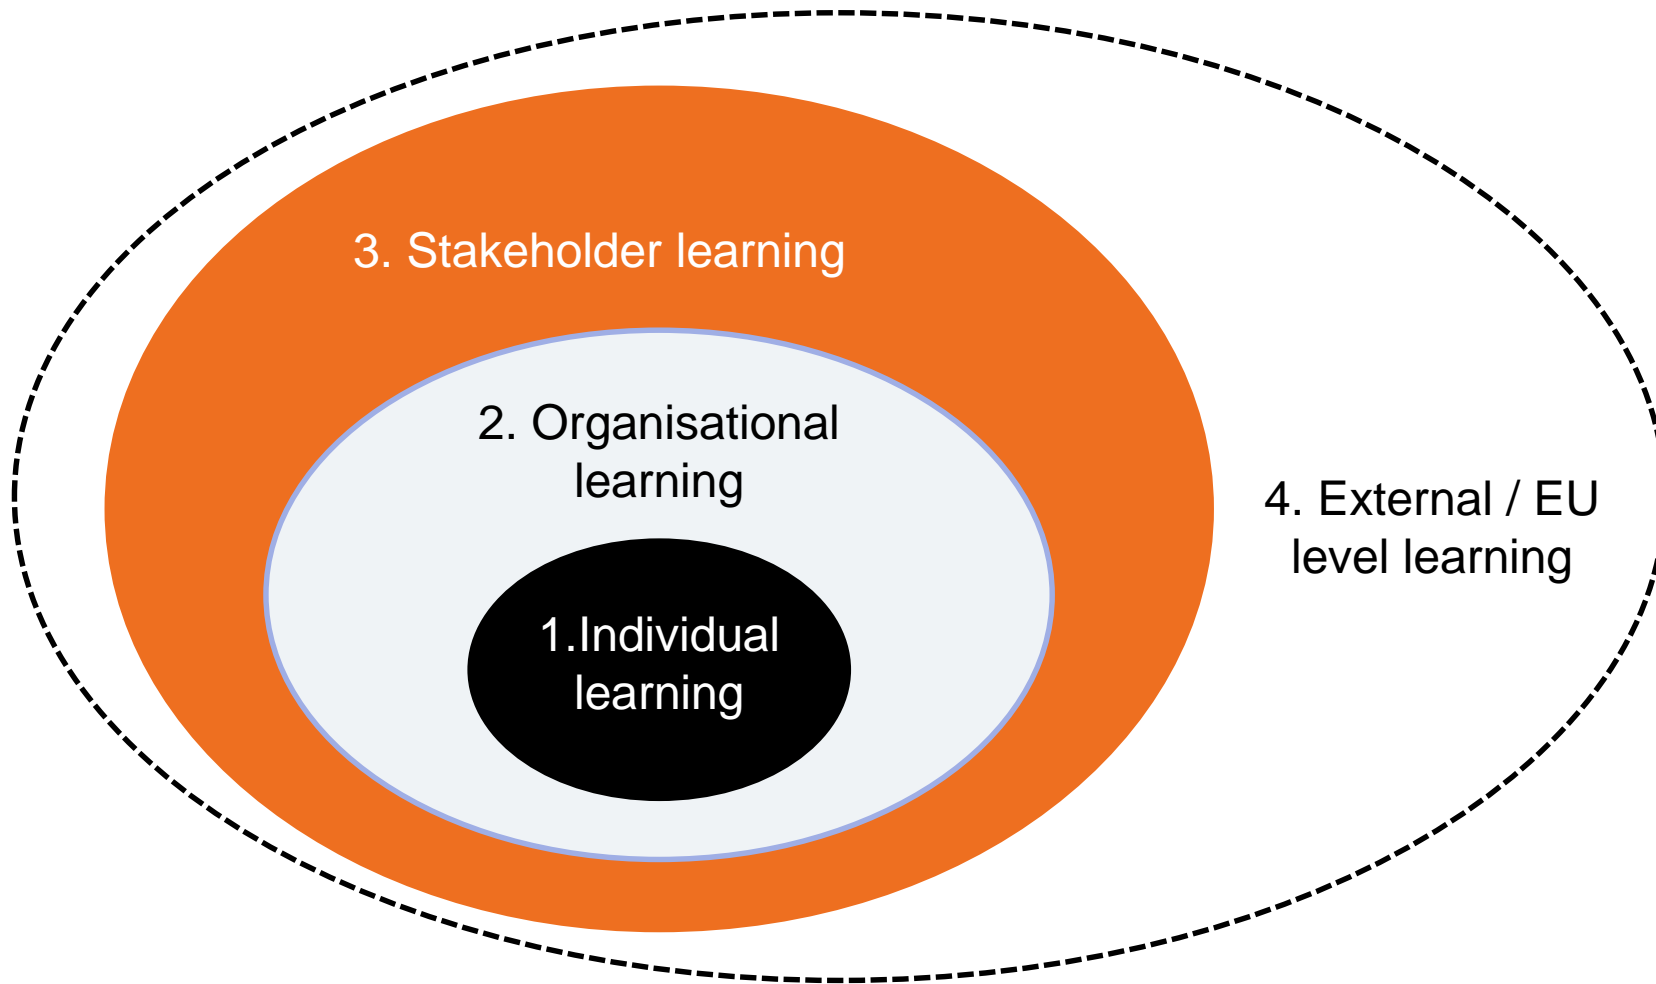

No magic recipe but a few important ingredients:

- A. Ensure learning at **different levels**
- B. Ensure the **quality** of each learning activity
- C. Ensure an **integrated approach**

A. Levels of learning

Go beyond individual / organisational learning!

B. Quality of activities

For all learning activities, importance of:

- Preparation – **Before**
e.g. agenda and supporting documents clear & sent sufficiently in advance
- Implementation – **During**
e.g. quality of speakers / presentations; quality of venues / logistics (translations?)
- Follow-up (documentation and monitoring) - **After**
e.g. evaluation / satisfaction questionnaire, activities proceedings

C. Integrated approach

- What are the main steps to reach the objectives and ensure the quality of action plans?
- What are the activities needed? In which order?
- How to ensure overall coherence in the learning process?

3 steps commonly adopted:

Step 1

- Analysis of partners' situations and **identification** of valuable experiences

Step 2

- Experience further **analysed** through activities such as study visits and thematic workshops

Step 3

- Preparation for the **transfer** of practices summarised in action plans

Exchange tools & templates

Standardised approach of Interreg Europe

- All projects achieve similar objectives
- All projects organise similar activities
- All projects face same requirements (e.g. action plans).
