

Objectives in the digitalisation of the Swedish Public Sector

Central government administration

- Innovative and collaborative
 - a simpler day-today life for citizens;
 - a more transparent administration that supports innovation and participation;
 - enhanced quality and efficiency in government activities.

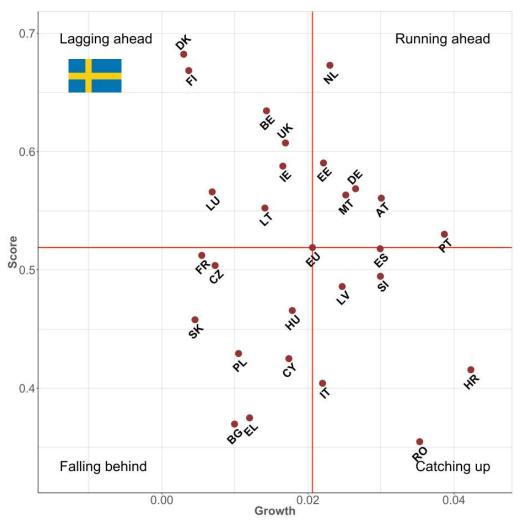

ICT policy

 Sweden is to be the best in the world at utilising the opportunities of digitalisation.

Digital first

 The Public Sector should primarily target digital channels to citizens and companies in their service delivery.

Public data vs. crowd-sourced big data for trafic

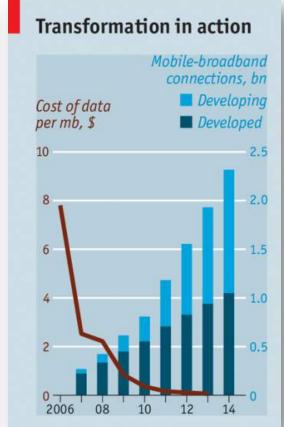

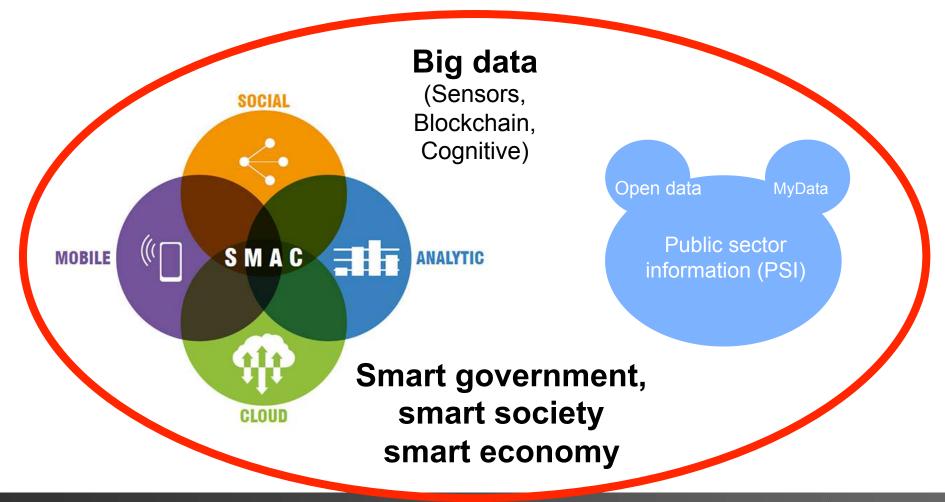

The data explosion...

Big data as the new platform for digital government!

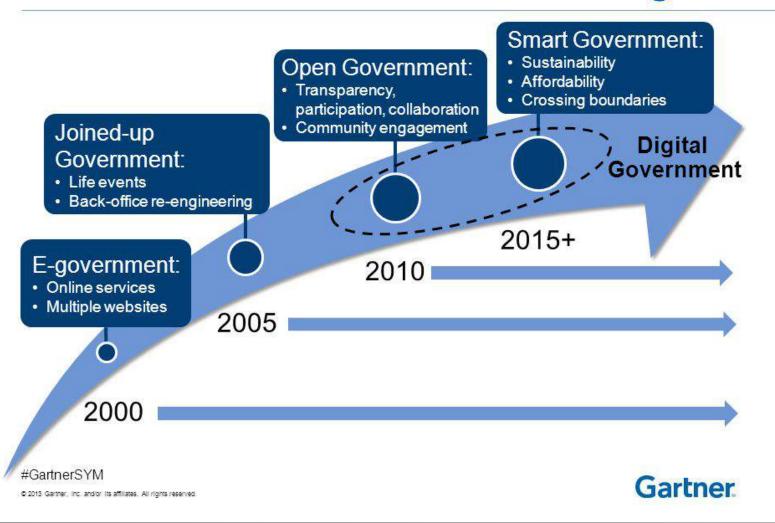

A new level of maturity

- E-Government refers to the use by the governments of information and communication technologies (ICTs) as a tool to achieve <u>better government</u>
- Digital Government refers to the use of digital technologies to create <u>public value</u>. It relies on a digital government <u>ecosystem</u> which supports the production of and access to data, services and content through interactions with the government.

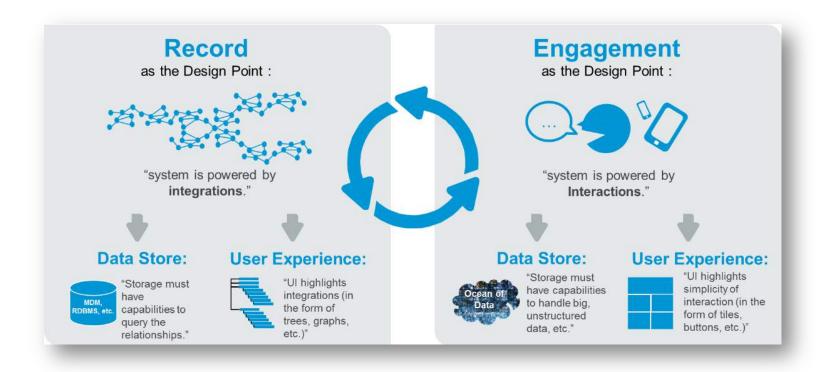

Four Phases of Technology in Government: Toward Smart and Digital

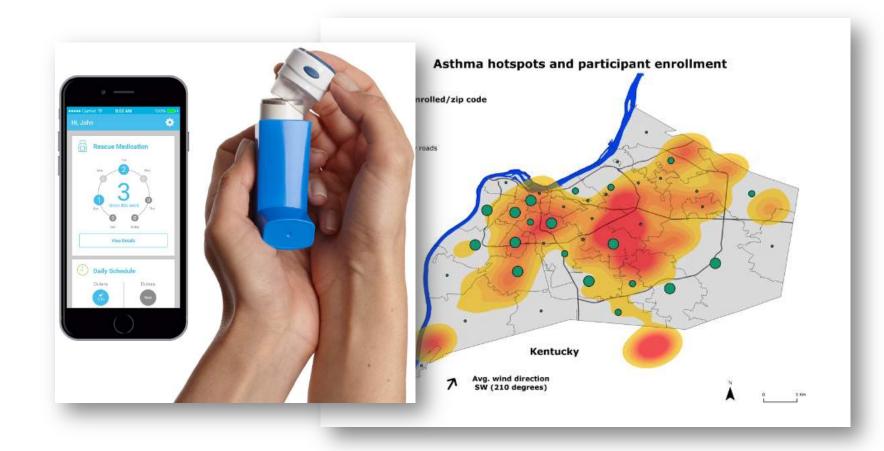

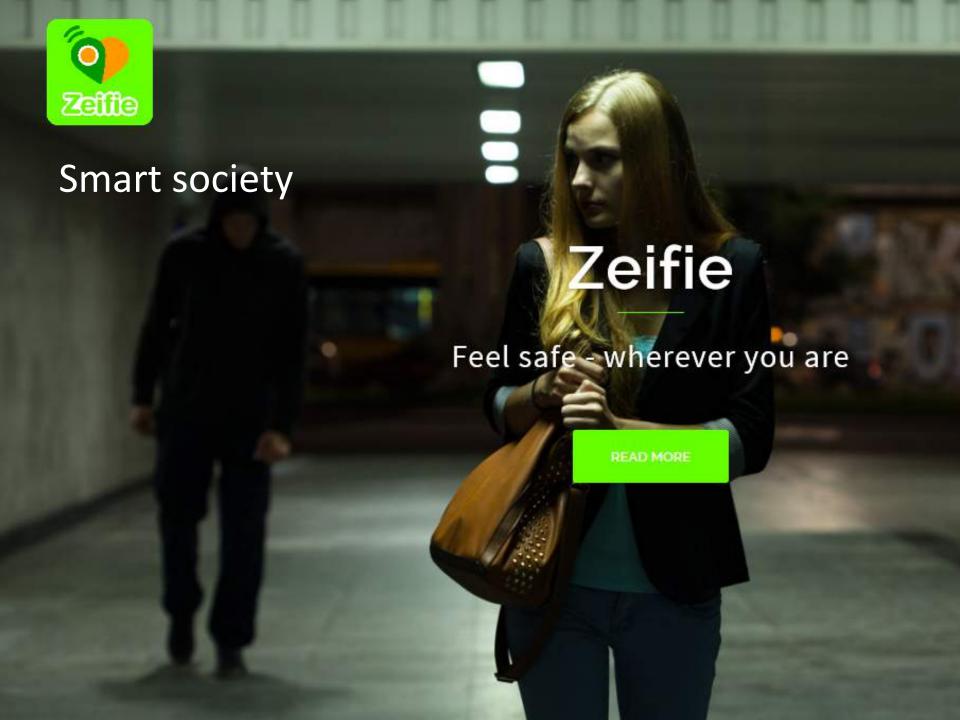

Moving from systems of records to systems of engagement

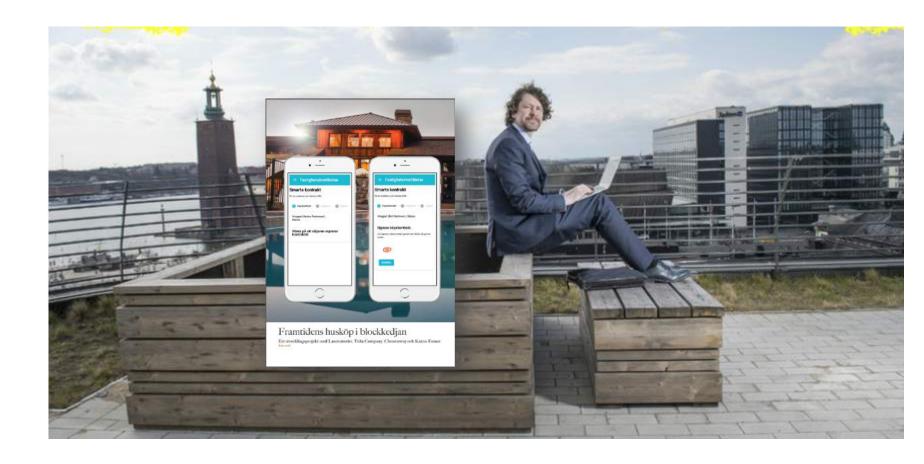

Health data

Buying property through smart contracts based on blockchain

Policy for an open and datadriven eco-system

Supporting supply

- Focus on agencies
- Private suppliers
- Aggregation
 - Linking
 - Standardisation
- Supporting demand
 - Promoting social innovation
 - From start-up to scale-up
- Understanding
 - Al and Analytics
 - Distributed technologies
 - MyData

National archives promotes supply

- Expert agency for open data
- opendata.se
- Datahotell
- NODS
- Guidelines
- Demandfunction
- Regulation

Mapping the swedish eco-system: Where is the engine and the conductor?

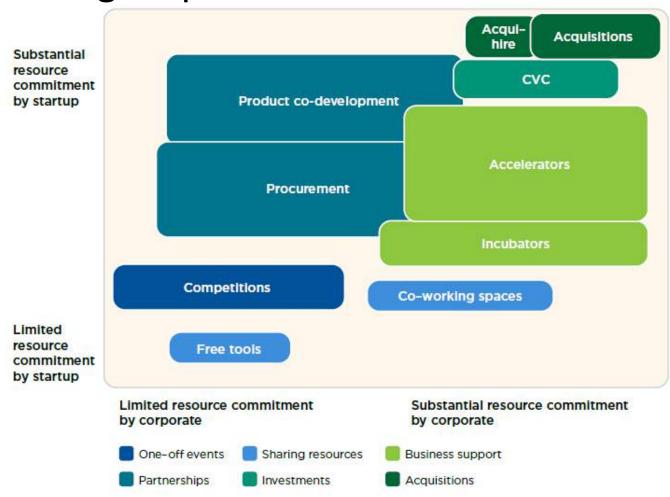

How to orchestrate an eco-systems for digital public innovations?

DigiGov - Toppledarforum för ett smartare Sverige.

DigiGov är regeringens och SKL:s mötesplats för samtalet om samhällets utveckling utifrån digitalisering. Deltagarna som är beslutsfattare på ledningsnivå kommer under dessa två dagar både få insikt och inspiration kring digitaliseringens möjligheter, men också bistå regeringen och SKL kring vilka beslut som måste fattas. DigiGov arrangeras av Regeringskansliet och Sveriges Kommuner och Landsting i samarbete med Easyfairs och Governo.

Digital first!

Smart government for welfare and growth
