# What are clusters?

---

Clusters are groups of interconnected firms, suppliers, related industries and institutions that arise in particular locations

*M.E. Porter*

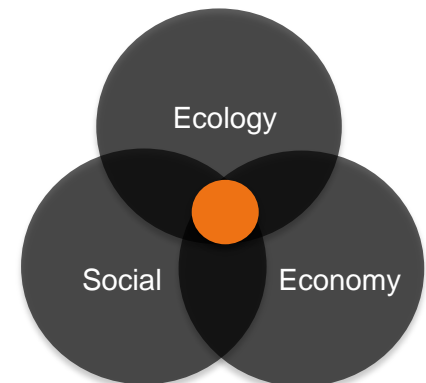

# NetPort Energy Cluster

---

## Purpose:

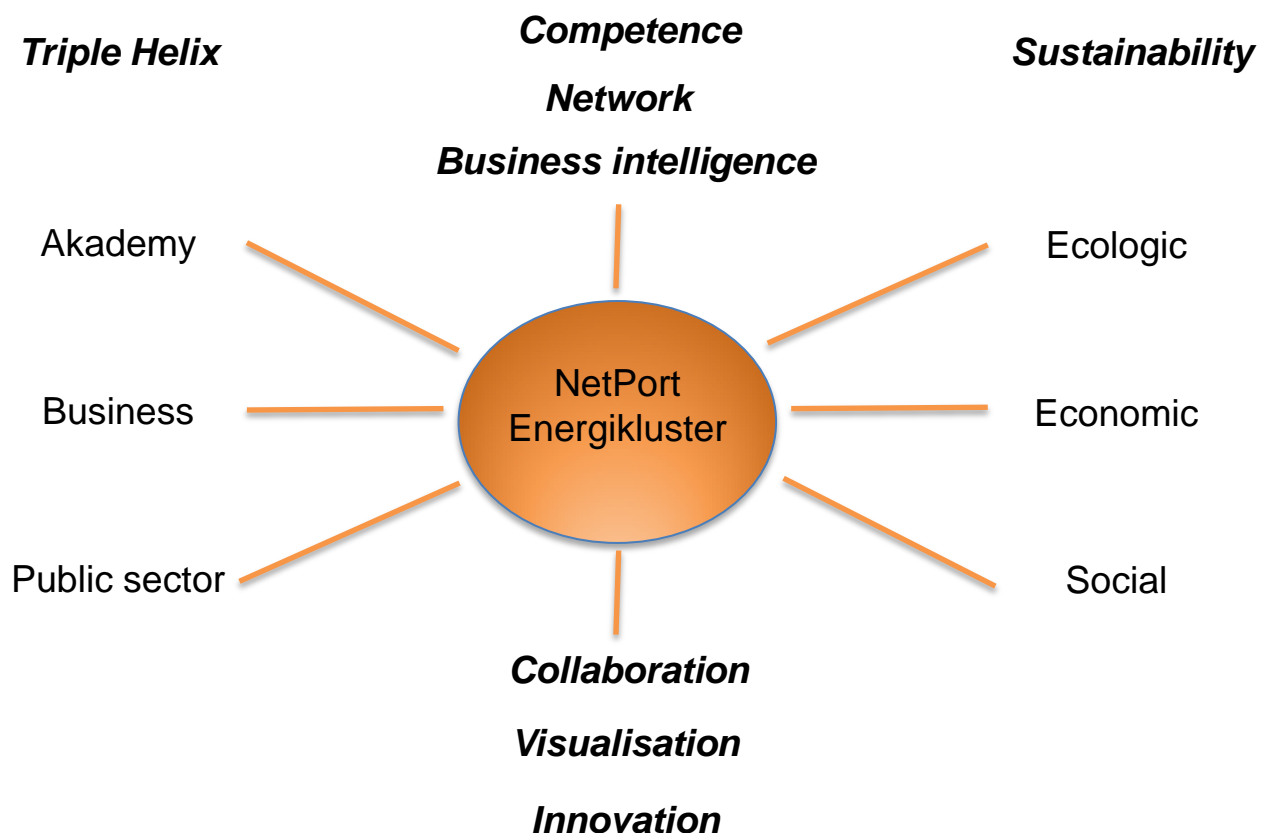

The purpose with the Cluster is to create an innovative working environment where ideas will be developed into sustainable products and services through cooperation with NetPort Science Park

Sustainability: Social, Ecology and Economy

# NetPort Energycluster model of collaboration

---

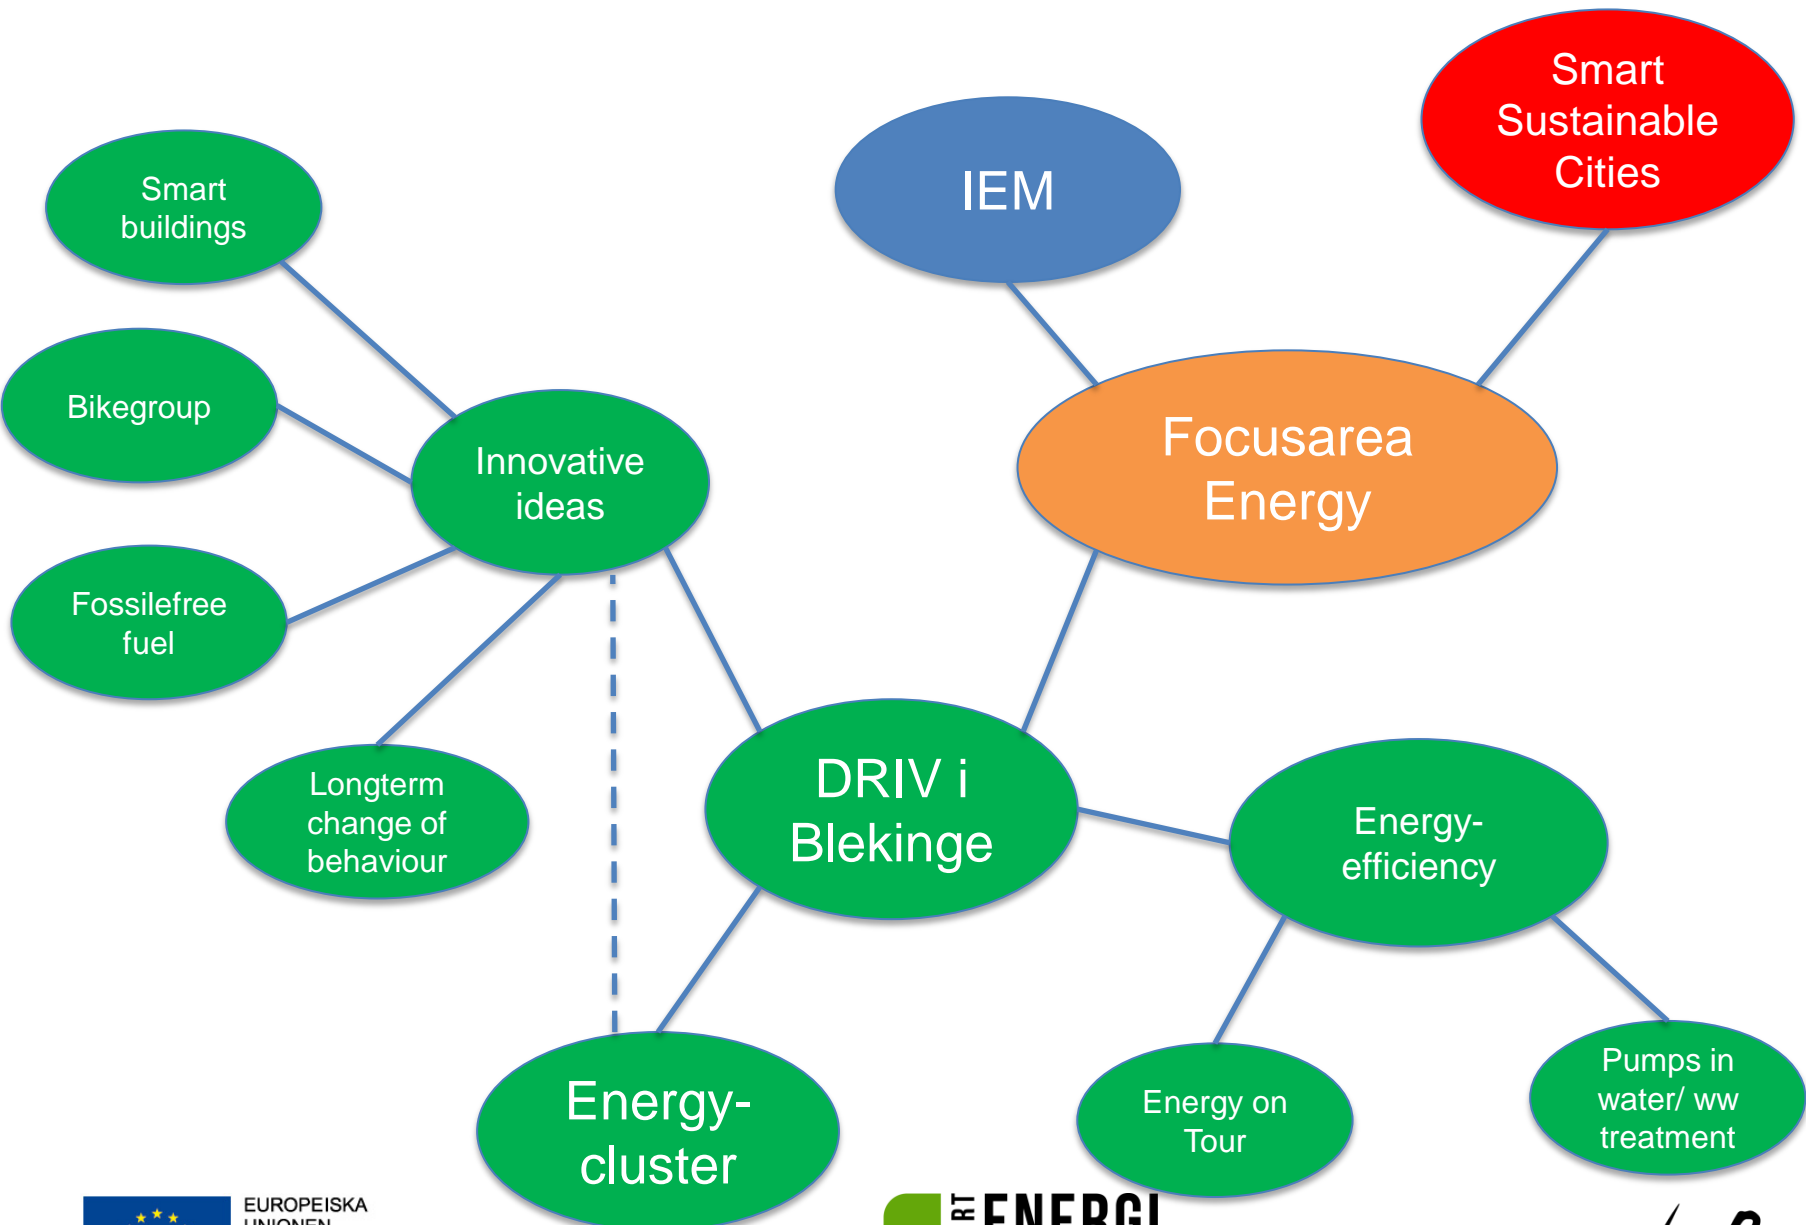

# NetPort Energy Cluster

---

## Vision for the Energy Cluster in 2020:

The cluster is an nationally and internationally known and respected innovation arena for development within the Energy Area
