Curriculum vitae

Miss Velislava Tihcheva graduated from the University of Economics Varna as a Bachelor in International Economic Relations. She holds Master degrees in International Business Economics and Communications and Business Development.

She gained an international experience through Erasmus exchange studies in Netherlands and Germany. While still being a student in Germany she gained a profound experience in European projects. She has joined the team of European project center- a structural unit of Wismar Business School and has started working for the research project on implementation of labor supplying responsibilities pursuant to the Maritime Labor Convention (MLC 2006), which also broaden her passion for European knowledge and experience in European projects.

European values and European policies are her passion, after volunteering for almost 3 years at international student NGO Erasmus student network that focused on in the field of higher education, youth, sport, cultural understanding and European values.

In 2014, She started her working experience in the Regional administration Varna, where she has since performed tasks of administrative assistance to the Regional Governor, who is implementing the state policy at regional level. She is also responsible for implementation of regional strategies, especially those related to regional development and social services, maintaining external relations with the international institutions and organizations as well as work of European project development that forward her to the role of local coordinator in the Land-Sea project.
