

## TANIA PRESS BOOK – 2nd SEMESTER

1. P1 – ASEV – 27/09/17 - (GONEWS.IT). This [news](#) describes a day dedicated to European Funds in which the TANIA project was presented to a wide audience composed by relevant entrepreneurs and researchers.
2. P1 – ASEV – 27/09/17 – (MET.CITTAMETROPOLITANA.FI.IT). This [news](#) describes a day dedicated to European Funds the TANIA project was presented to a wide audience composed by entrepreneurs and researchers.
3. P3 – University of Helsinki – (YmpäristöjaTerveys.fi). The online version of this [news](#) results to be not accessible. Available here below pictures of the article published describing the TANIA project. It is possible to contact the partner responsible and ask for a more detailed description by clicking [here](#).

4. P3 – University of Helsinki – 13/12/17. This [article](#) (please see from page 43-45) refers to TANIA project, its main goals and ways to reach them and also about nanoremediation technologies, especially nZVI and how they can be utilised in Finland was published in a national magazine Promaint. Promaint is a professional magazine for those who work with remediation which is why it is a good media for spreading knowledge about nanoremediation for those who actually can promote it and use it in practise.
5. P4 – GrandEst – 04/12/17 – “Les Tablettes de Lorraine” – Friches Industrielles, Engagement de la Region: The article is available in PDF format. It's possible to ask the partner responsible for the PDF by clicking [here](#). Here below a picture of the PDF.

## FRICHES INDUSTRIELLES

# Engagement de la Région ■

LA RÉGION GRAND EST EST ENGAGÉE DANS LE PROJET EUROPÉEN INTERREG VC TANIA VISANT AU TRAITEMENT DES FRICHES INDUSTRIELLES. DEUX VISITES SUR SITES VIENNENT D'ÊTRE ORGANISÉES AVEC UNE DÉLÉGATION DE PAYS ÉTRANGERS PARTENAIRES DU PROJET.

Nom de code : INTERREG VC TANIA. Mission : mettre en place des techniques innovantes en matière de dépollution des friches industrielles. Démonstration réalisée le 28 novembre dernier sur l'ancienne friche des hauts-fourneaux à Uckange et au sein du GISFI (Groupement d'intérêt scientifiques sur les friches industrielles)

*L'Europe, ça m'apporte quoi, ici ? Réponse le 7 décembre à la salle des fêtes d'Ochey.*

de l'Université de Lorraine à Homécourt. Lancé au début de l'année pour une durée de cinq ans, «ce projet va nous permettre de renforcer l'accompagnement des territoires dans la reconversion des friches polluées», assure l'exécutif régional. Emmanuel VARRIER
