

**3rd Newsletter Manumix Interreg Europe.
April 2018*****MOSTA* hosts the third Learning Journey of the MANUMIX INTERREG
EUROPE in Vilnius, Lithuania**

On 17 and 18 April, *MOSTA-Research and Higher Education Monitoring and Analysis Centre* , hosted the third international meeting between the partner regions of the *Manumix Interreg Europe* project.

This third meeting, focused on monitoring and indicators, has allowed the participating regions to increase their knowledge on existing indicators to monitor programs and potential indicators to measure the combination of policies

During two days, the partner regions have shared the degree of individual and collective progress of the project in order to strengthen and improve the evaluation of

the policy mix in advanced manufacturing

PEER REVIEW

Building a common framework

On the first semester of 2018, experts from the Lithuanian Government and MOSTA analysed the evaluation system of the Basque Government's *Hazitek, Basque Industry 4.0* and *Gauzatu R&D* programmes using the methodology known as *peer review*.

The results obtained from this contrast will be a starting point to design a new model for advanced manufacturing policy mix evaluation in the Basque Country. During the 3rd Learning Journey, a delegation of Basque experts and a Welsh representation have analyzed the combination of the advanced manufacturing programs of the Lithuanian Government. The resultst will be taking in account to improving the design of the combination of the R + D + i programs available in Lithuania.

Lithuania, Piedmont, Wales and the Basque Country are ready to prepare their action plans

3rd LEARNING

PILLAR: Monitoring and indicators

During the workshop about monitoring and indicators, the partners have learned that monitoring process may have different purposes, such as:

1. Learning about actual transformation processes and informing policy
2. Building and reinforcing trust and cooperation with and among stakeholders and citizens
3. Ensuring accountability of policy makers and policy managers

They have also analyzed the types of indicators to monitor individual instruments and potential indicators for policy-mixes and the process of monitoring; design of the monitoring system, gathering and analysing data and visualization and reporting

4th LEARNING JOURNEY
