## PRIORITY AXIS I

«STRENGTHEN TECHNOLOGICAL RESEARCH, DEVELOPMENT AND INNOVATION»

**349.355.000 €**

**36%**

OF TOTAL ERDF ROP 2014-2020 FINANCIAL RESOURCES

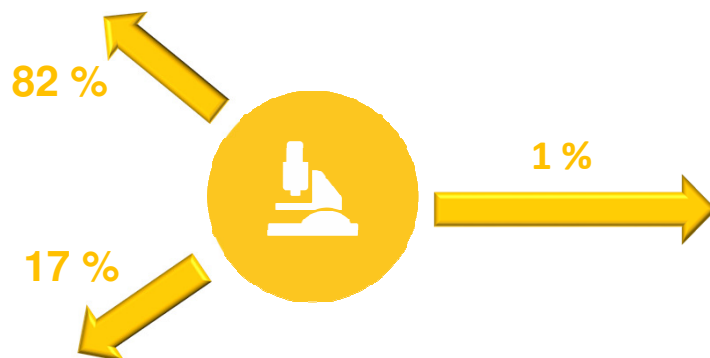

## MAIN ACTIONS and FINANCIAL RESOURCES

### Increase businesses' innovative activity:

- support for the buying-in of services for technological strategic, organizational and commercial innovation by companies;
- support for the economic exploitation of innovation by experimenting with and taking up innovative solutions in processes, products and organizational formulas, and by funding the industrial application of research findings;
- support for co-operative R&D activities to develop new sustainable technologies, products and services.

### Promote new markets for innovation:

- strengthening and upgrading government demand for innovation through support for Pre-commercial Public Procurement and Innovation Procurement

### Strengthen regional and national systems for innovation:

- system-wide measures to support Lombardy firms' participation in national platforms for concerted action and technological specialization networks such as the National Technology Clusters, and in projects funded under other European programmes for research and innovation (Horizon 2020);
- support for implementing complex R&D projects on a chosen few subject areas, and for applying functional technological solutions to the implementation of S3s

**PRIORITY AXIS III**  
«PROMOTE SME COMPETITIVENESS»

**294.645.000 €**

**30%**

OF TOTAL ERDF ROP 2014-2020 FINANCIAL RESOURCES

## MAIN ACTIONS and FINANCIAL RESOURCES

### Start-up and consolidation of MSMEs:

- supporting new business start-ups through direct incentives, by providing services, and using micro-finance arrangements

### Raise the level of international activity in the economy:

- supporting export promotion projects;
- setting up opportunities for Italian and foreign entrepreneurs to meet with a view to attracting inward investment and promoting commercial agreements

### Reawaken the propensity to invest within the regional economy:

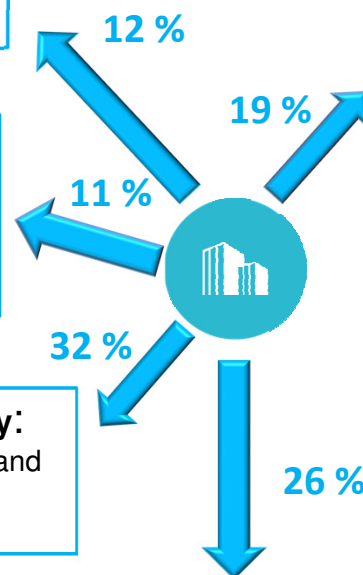

- help for capital spending on machinery, equipment and intangible assets, and assistance with the processes of company reorganization and corporate restructuring

### Improve access to credit, business funding and risk management in farming :

- providing financial backing for the system of public guarantees for the expansion of credit, making the national and regional guarantee systems work together for greater efficiency by promoting rationalization measures which make joint credit guarantees even more efficient and effective;
- promoting innovative bonds for SME finance, and mentoring SMEs making use of them;
- helping to develop the market in venture capital funds for business start-ups at the pre-seed, seed and early stages

### Consolidate, modernize and diversify the Region's production resources and arrangements:

- supporting for the development of products and services for the exploitation of identified cultural and natural attractions of the Region;
- supporting for the competitiveness of firms in tourist destinations by improving the quality of the offer and introduce new products and services with strategic and organizational Innovation;
