

BRIDGES project 7th IPL Feasibility study review PP3 Lubelskie Voivodeship, Poland

29 - 30 May 2018

Munich, Germany

Feasibility study review PP3

- **Name:** Implementing new attitude to mobilise companies from bioeconomy sector to innovate and ensure SME absorptiveness, as a tool towards improving innovation & SME competitiveness through investments addressed by the ROP
- **Optimisation question:** how to rise an interest of the companies to involve in innovation, new solutions and reveal their needs
- **Period of execution of the feasibility study:** end of July 2018
- **Good practice (-s) reference:** Autodiagnostic Tool for Agro SMEs

Feasibility study review PP3

- **Action plan take up:** organisation of series of workshops for companies identified in Feasibility Study as willing to cooperate with R&D institutions to come up with project ideas, that could be funded under ROP LV
- **Acceptance of the feasibility study (RSK session):** not yet, the meeting planned in June
- **Insights**
 - evaluation with Autodiagnostic Tool will be conducted with companies indicated in the Innovation Map. Primary verification of the list showed, that there are few companies that went bankrupt. The expert will extend the list to ensure, that 80 companies are evaluated
 - the expert institution, that will conduct evaluations is the strongest IBS in Lubelskie, closely cooperating with companies on daily basis

Feasibility study review PP3
