

AGENDA

of the

2nd Regional Multi-stakeholder meeting organised in the framework of the HOCARE Interreg Europe Programme “*Delivery of Innovative solutions for Home Care by strengthening quadruple-helix cooperation in regional innovation chains*”.

Date: 5th December 2017 10:00-12:40

Venue: Párbeszéd Háza (1085 Budapest, Horánszky utca 20.)

Programme:

09:30- 10:00 Registration

10:00- 10:10 Greeting by István Csizmadia István (NHSC)

10:10- 11:40 discussion and debate on the 3 major themes and challenges of the project from an international scope

Topics:

1. innovation and its support (unmet needs)
2. public driven innovation
3. how to bring innovative home care solutions quicker to the market?

moderated debate

11:40- 12:00 coffee break

12:00- 12:40 a short review of the collected GP-s which are influential to formulate final policy recommendations in the framework of the project

Hocare project is carried out under the Interreg Europe programme, financed by the European Regional Development Fund, co-funded by the EU and the Hungarian State,

Hocare project is carried out under the Interreg Europe programme, financed by the European Regional Development Fund, co-funded by the EU and the Hungarian State,

The participating experts represented the whole Quadruple Helix (QH): patients' and professionals' or formal and informal care providers' organizations as **END-USERS**; ICT, MEDTECH, cluster and industrial park associations and organizations as **BUSINESS**; universities and researchers as **ACADEMIA**; and authorities for HTA, licencing, policy making and financing/granting or development programmes as **PUBLIC**.

Stakeholders were informed by NHSC (ÁEEK) about the work resulting **3 Thematic Studies** and **3 Policy Transfer Reports**, and got brief information about the **country specific conclusions** and **recommendations** of these documents.

Participants of the RMG meeting discussed **KEY CHALLENGES** detected by the studies and reports concerning following topics:

1. Innovation in home care to satisfy unmet needs:

- innovation ecosystem - formal and informal healthcare providers inside of the innovation ecosystem and the transfer of knowledge of unmet needs;
- support from operational programme - support of formal and informal healthcare providers inside the research and innovation projects in the operational programme.

2. Public driven innovation in home care:

- innovation ecosystem – public organizations as ppi, pcp and other innovative projects initiators,
- support from operational programme - support of public driven innovation programmes / initiatives from operational programme.

3. Bringing results of innovation faster to home care market:

- innovation ecosystem – quadruple helix cooperation to boost homecare solutions faster to the market;
- support from operational programme - support of market successful innovation developed by quadruple helix cooperation inside the research and innovation projects in the operational programme.

The RMG members discussed the **Good Practices** provided by HoCare project partners and agreed to concentrate on examining the possibilities and opportunities of transferring the following GPs:

1. GPs about the driving function of end-users' unmet needs, which may be interesting to transfer:
 - the **way of** cooperation (*learnings and elements of the following 2 GPs might be transferred jointly in one lot*):
 - InTraMed-C2C (CZ)
 - GRACE (PT);
 - the **result of** cooperation (*learnings and elements of the following 2 GPs might be transferred jointly in one lot*):
 - Tele-Rehabilitation (CY)
 - RehabNet (PT).

Hocare project is carried out under the Interreg Europe programme, financed by the European Regional Development Fund, co-funded by the EU and the Hungarian State,

2. GPs about public driven innovation, which may be interesting to transfer:
 - the **way of** cooperation (*learnings and elements of the following 2 GPs might be transferred jointly in one lot*):
 - Codification of projects' evaluation targeting societal challenges including Health, Demographic changes and Well-being (PT)
 - Evaluation bonus for addressing horizontal priority "Health for all" (LIT)
 - the **result of** cooperation (*learnings and elements of the following 2 GPs might be transferred jointly in one lot*):
 - Tele-hippocrates (CY)
 - Check Point Cardio (BG)
3. GPs about putting innovation faster to market, which may be interesting to transfer:
 - the **way of** cooperation:
 - EkoSMART (SLO)
 - the **result of** cooperation:
 - Psiprof (PT)

NHSC (ÁEEK) informed participants of the meeting about the directions to define the focal points for the **recommendations** of the Regional Action Plan. RMG members discussed these ideas and provided **details and confirmation for ÁEEK to finalize** the drafts of the Policy Transfer Reports **and start** developing and drafting the Regional Action Plan (that would be finalized through 1-2 additional RMG meetings and MA discussions latest by the end of March 2018).

The RMG agreed with the **general conclusions, specific comments, overall recommendations** and **action- or call-level proposals** regarding Economic Development and Innovation Operational Programme (EDIOP/GINOP).
