

## Forth TANIA Exchange Event

Lahti (Finland), 15 / 16 May 2018

Venue: Niemi Campus (University of Helsinki) and Regional council of Päijät-Häme

### DRAFT AGENDA

#### Description

In Year 2 TANIA Project Stakeholders (TPS) use interregional and regional exchange to Merge Expertise, thus to identifying practical policy **solutions** to nanoremediation **challenges**. Moreover, during TANIA Exchange Event 2 (November 2017) partners expressed interest in spending some time discussing each **Policy Instrument** addressed within the project. In this way, they can begin to link knowledge and solutions to the practical changes that could potentially be made to their Policy.

TANIA Exchange Event 4 invite partners and stakeholders to participate in a series of **interactive sessions** to:

- Get to know the policy context for (nano)remediation;
- Understand the solutions proposed (gathered prior to the meeting using Solution Template), with a focus on elements that could be transferred from one region to another to address their (nano)remediation challenges;
- See practical examples on novel remediation techniques in the Päijät-Häme region.

Partners will also participate in the **Steering Committee** meeting, addressing Communication and Management related activities.

**Day 1: 15 May 2018 *Interregional Exchange Event***

**Venue: Niemi Campus (University of Helsinki)**

**Schedule: 0900 – 1700**

***0900 – 0945: Opening and Review***

The session begins with opening talks from the host partners (Representative of Region Päijät-Häme and Representative of University of Helsinki).

It continues with an overview of work carried out, of meeting methodology and of Year 2 work, from *Lorenzo Sabatini*, ASEV (Lead Partner).

A presentation of the results of Päijät-Häme feasibility study follows.

***0945 – 1230: Tania Project Stakeholder Workshop – the policy context***

During TEE3, partners agreed that it would be relevant to link up their ideas and challenges to the existing policy context. In particular, they should analyse their selected policy instruments in order to start identifying areas for improvement.

This session begins with an introduction presentation and is followed by an interactive session to share partners' selected policy instruments. This session will use presentations, posters and a matrix (more details will follow).

*A coffee point will be available in the morning, for a break mid-session.*

*1230 – 1330 Lunch*

***1330– 1730: Site Visits***

SOILIA soil research center and pilot site (descriptions to be added)

*1900 Evening Activities*

**Day 2: 16 May 2018 – Tania Project Stakeholder Workshop Part 2 and Steering Group Meeting**

**Venue: Regional council of Päijät-Häme**

**Schedule: 0900 – 1500**

***0900 – 1230: Tania Project Stakeholder Workshop – Solutions***

Partners and stakeholders will participate in an interactive session, learning about the solutions shared from each partner. The solutions will be identified prior to the meeting, using the TANIA solutions template. Solutions will be presented in two parallel sessions: technical and political. They will be presented using a quick pitch format, followed by small group discussion. The session will end with a round up (bringing together the results of the two parallel sessions).

*A coffee point will be available during the Workshop.*

*1230 – 1330 Light Lunch*

***1330 – 1500: Tania Project Steering Committee***

Round up of Exchange Activities and Next Steps, including 5th Interregional Event (Heraklion, Month 20)

TANIA Project Communication Activities

TANIA Financial Management and Technical / Financial Reporting

Meeting Conclusions and Informal Evaluation of the meeting by participants.

*1500 End of Meeting*

## PRACTICAL INFORMATION

The Helsinki-Vantaa Airport is c. 100 km distant from Lahti.

(<https://www.finavia.fi/en/airports/helsinki-airport>)
