Sharing experience for a better world

SHARING experiences, devising solutions and putting good practices in place to reduce carbon emissions is the mission of 'Empower', which is an exciting project involving a partnership of nine European regions.

The Southern Regional Assembly which has its headquarters in the city is Empower's Irish partner and in recent weeks, with the assistance of Cork City Council and Cork Institute of Technology they hosted a successful study visit which attracted participants from Germany, Spain, Slovenia and Poland.

The purpose of the study trip was to learn more about successful energy monitoring programmes currently being rolled out here in Ireland, including SEAI's Public Sector Reporting and Monitoring Programme and the OPW's 'Optimising Power @ Work' campaign.

The Southern Regional Assembly in the city hosted a study visit to learn about successful energy monitoring programmes.
