Region Jämtland Härjedalen

To improve policy instruments
– increase the possibilities
for the northern regions.

To meet the increasing need of
competence and skills within the
energy sector.

To develop a system that help thrive towards
energy efficient actions in properties.

To meet the increasing need of competence and skills within the energy sector

A more professional sector by enabling better training and education

To develop a system that help thrive towards energy efficient actions in properties.

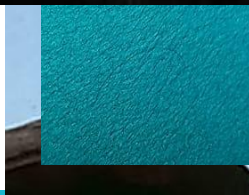

To improve policy instruments
– increase the possibilities for the northern regions.

Finance:
Private sector
Some extent the schools
???

Worries:
Continue
Follow up and evaluation
Students

Policies:
Competence platforms
Regional development and
growth

Next:

Put this into practice

Evaluate and build on the "bank"- practical

Build a summer job "bank" – theoretical

Extend to other parts of Region JH

Industry night – now 13-15 year old
