

The municipality of Almada and the Energy Municipal Agency of Almada (AGENEAL) organized an international meeting on the 4th of July to discuss and present the Local Climate Stakeholder's Platform for Almada (Plataforma Local Almada Clima – PLAC).

The opportunity was taken by AGENEAL to promote the SURECITY project and its goals and to discuss the potential role of the platform in evaluating scenarios for the future and supporting the roadmap to a clean energy transition in Almada.

This meeting was organized under the European project INTENSIFY – More Carbon Reduction through Intense Community Engagement, cofinanced by the Interreg Europe programme.

The SURECITY Project is supported by the ERA-NET Cofund Smart Cities and Communities (ENSCC) from the Joint Programming Initiative Urban Europe (JPI-UE).
