

## **Summary of the Report on CoP Meeting – Semester 4**

### **PP4 Public Enterprise for Social Housing and Refurbishment in Andalusia**

The 4th Community of Practice (CoP) meeting took place in Seville, on 24th October 2018 in Santiago Street, coinciding with the European WISE Event, where 70 Andalusian stakeholders attended the meeting.

The main objective was to present the Partners' Best Practices made by regional or local government and to present one of the Andalusian proposals to the partnership, in order to be selected to the Interreg Learning Platform.

The General Director of Housing, Refurbishment and Architecture opened the event. Focusing in the main objective, by way of a presentation for exchange of knowledge through the Good Practices, and try to find new formulas and solutions to achieve more sustainable heritage buildings. He emphasised the importance of the Andalusian CoP to draw a roadmap to implement energy efficiency parameters in rehabilitations works.

The presentations of the Good Practices were filled with various great examples for energy efficiency measures in historical buildings. A non-destructive buildings substance analysis, efficiency investment tools and a life cycle assessment methodology are examples for the presented content which was enriched by the input of the other present project partners which shared their experience at the event.

After the European WISE event and Andalusian CoP meeting, an interregional meeting was designed. The main idea was to present the Action Plan Idea, to link the Action Plan with the lessons learnt during Good Practices presentations and to prepare partners for next steps to be done for each partner. Here an intensive exchange of the participants took place. Finally on October 26<sup>th</sup> a face to face meeting between Rumanian and Andalusian Public Administration was held in Seville.
