

# **TTPLAST activity In circular economy**

## A quick history of T.T.Plust

**Since the 70's**, the company was a plastic carrier bag manufacturer

**2001**: TTPLAST has joined the Papier Mettler's Group

**2009**: The group has decided to set up a circular economic model

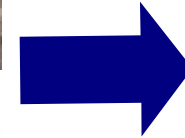

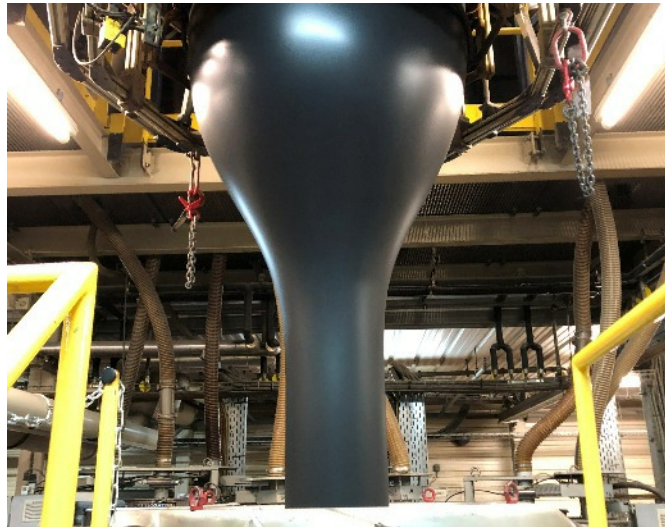

**2011**: launch of 3 regeneration lines

**Capacity in 2019** (in Lens): 15kt regeneration

16kt manufacturing

# T.T. PLAST

**CircE**  
Interreg Europe

March 13-14, 2019

**Visit in our factory and collected materials in a school**

## Challenges

### **For the group:**

Become the largest LDPE regenerator in the world

### **For the french unit:**

Work with the risk of an over-interpretation of the European directives

**T.T.PLAST**

**Thanks for  
your attention**
