

“Regional Policies towards Greening the Social Housing Sector”

7th NEWSLETTER

Social Green is an EU funded project working in eight municipalities and regions in six European countries.

Together, **we are developing solutions and policies on how to make social housing sector more green** through mutual learning and development of improved regional policies.

This provides the opportunity to explore **green building practices** and significantly reduce GHG emissions through cost-effective means while providing much-needed housing in a healthy and sustainable manner.

CARBON NEUTRAL SOCIAL HOUSING: POST 2020 CHALLENGES

The mid-term event of Social Green project was a great opportunity to discuss the new framework after 2020 for schemes in social housing, efficiency, environmental challenges and retrofiting; among others.
