GREEN SCHOOLS COMPETITION

7th edition of the competition organized by the Province of Treviso and addressed to high schools to promote knowledge and virtuous behaviour in the field of energy saving among about 40.000 students, teachers and school staff. This new edition of the competition is inspired to the 3 European projects in which the Province of Treviso is involved:

- TOGETHER – *TOwards a Goal of Efficiency THrough Energy Reduction* (Programma Central Europe) <https://www.interreg-central.eu/Content.Node/TOGETHER.html>

- EduFootprint – *School Low carbon Footprint in Mediterranean cities* (Programma MED) <https://edufootprint.interreg-med.eu/>

- INTENSIFY- *More Carbon Reduction Through Intense Community Engagement*

With over 100 school buildings to heat, light and manage in a context of limited resources for technology and refurbishment, the Province of Treviso has diversified its actions, integrating the energy management system with measures designed to change the behavior of the buildings occupant.
