Supporting energy efficiency in private households (July 2019)

Webinar

“One-stop-shops” to mobilise and support deep energetic refurbishment of private buildings

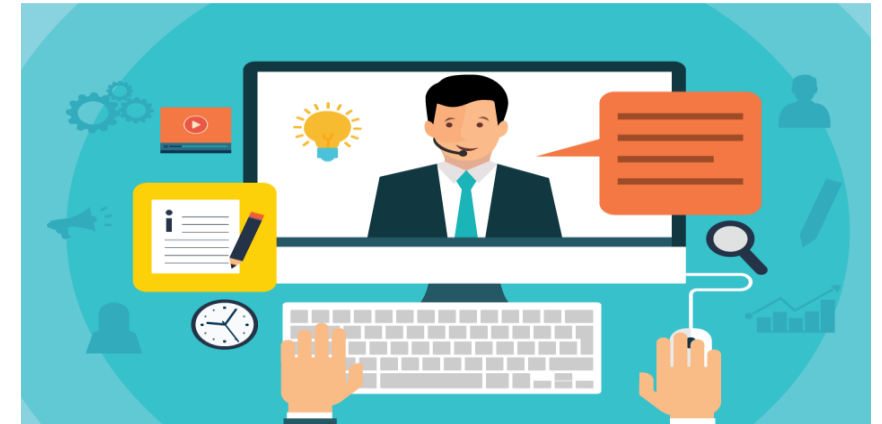

SAVE THE DATE

13 September –10:30-12:00

Aims:

- Explore the concept of integrated building energy refurbishment support services
- Present Good Practices from selected Interreg Europe projects
- Validate the upcoming policy brief
- Facilitate networking between projects

Agenda to be circulated shortly!

We want to hear from you

We'll draw from today, but,

What projects, initiatives and knowledge hubs do you know of that would be of use for other participants?

Let us know!

Or submit to the Good Practice Database!

The screenshot displays a list of three good practice entries from a database. Each entry includes a small image on the left, a title, a description, a location, and a date. The first entry is titled "IFRRU 2020" and describes a financial instrument for urban rehabilitation in Portugal. The second entry is titled "EE in School center Velenje" and describes a new energy management model for a school center in Slovenia. The third entry is titled "Large-scale capacity building for local public authorities and..." and describes the European Energy Performance in Buildings Directive (EPBD).

Image	Title	Description	Location	Date	Tags
	IFRRU 2020	The Financial Instrument for Urban Rehabilitation and Revitalization (IFRRU 2020), provides EUR 1.4 billion for urban rehabilitation in Portugal.	Lisboa, Portugal	19/03/2018	Low carbon strategy (urban areas), Energy...
	EE in School center Velenje	School center established a New model of energy management of heating and electric energy.	Vzhodna Slovenija, Slovenia (Slovenija)	19/03/2018	Energy Efficiency in Buildings, Energy...
	Large-scale capacity building for local public authorities and...	The European Energy Performance in Buildings Directive (EPBD) defines the increase of energy efficiency (EE) in public buildings.	Vzhodna Slovenija, Slovenia (Slovenija)	19/03/2018	Energy Efficiency in Buildings, Energy...

The Infinite Solutions Guidebooks

Infinite Solutions Guidebook - Financing the energy renovation of public buildings through Internal Contracting

This guidebook is built upon a comprehensive analysis of Stuttgart's Internal Contracting scheme and a detailed questioning of it by the learning authorities within the Infinite Solutions project. It is intended to offer guidelines to municipalities as well as universities, hospitals or other institutions interested in applying Internal Contracting to improve their energy consumption and efficiency performance.

Infinite Solutions Guidebook - Financing the energy renovation of residential buildings through soft loans and third-party investment schemes

English (en) - italiano (it)

In this guidebook, Energy Cities' members share their experience and guide you through the process of setting up a soft loan financing scheme. The Stuttgart's 'care-free energy renovation package' and third party investment scheme are described in detail in a dedicated case study.

Peer review

Interregional learning on demand

Target groups:

- Managing authorities
- Local and regional policymakers

Approach:

- Face-to-face exchanges with experts (peers) from other regions on concrete policy challenges

*Improving the efficiency of ESIF funding for energy efficiency measures
Looking for innovative ways to support the internationalisation of SMEs
Investing in digital mobility solutions for rural areas*

Support:

- Active support by the thematic experts of the Policy Learning Platform

*Identification of suitable peers
Guidance and coordination/ moderation support*

German-speaking community, Belgium

Mastering the challenge of inter-municipal SECAP implementation

May 2019

We would like to thank all participants of the peer review and in particular the four peers for their valuable input. **The peer review was perfect with regard to the timing and the many interesting approaches that have been shared. In our speeches, we often talk about the added value of European cooperation. With the peer review, we could implement that concretely in our region.** A big thank you also to Interreg Europe for offering this policy learning tool.”

Daniel Hilligsmann, Advisor to the Minister President of the German speaking Community, Belgium

Open call for peer reviews

deadline 28 June 2019

<https://www.interregeurope.eu/peer-review/>

Apply for a peer-review

Pre-conditions:

- Policy responsibility of the host (local/regional authority, managing authority)
- Readiness to lead and coordinate the process
- Registered member of the Interreg Europe community: <https://www.interregeurope.eu/account/registration/>

Selection criteria:

- the policy area addressed (thematic relevance for the programme: **sustainable mobility, implementation of local climate action plans, energy efficiency measures...** and all “Thematic Objective 4” topics)
- the strong motivation of the candidate for a peer review
- the involvement of relevant local and regional stakeholders (if relevant for the addressed policy area)
- the potential for policy impact and follow-up action
- the clarity, completeness and overall quality of the proposal

Timely online submission recommended
