RENATUR OBJECTIVES

The loss of peri-urban open spaces and the natural heritage within them can be prevented by timely political and planning co-operation beyond administrative borders.

The objective of the RENATUR project is to develop improved policy instruments suitable to protect the natural heritage of peri-urban open spaces. These policies will help to:

PROTECT ecosystems and their services

PREVENT fragmentation of ecosystems and IMPROVE their connection

CONSERVE biodiversity and REDUCE loss of biodiversity

RAISE AWARENESS about the green infrastructure concept in land-use planning

REDUCE soil sealing

RENATUR APPROACH

Phase 1:
Exchange of experience

Phase 2:
Implementation of action plans
