Mining Regions of EU

9 Partners

1 Advisory Partner

9 Countries

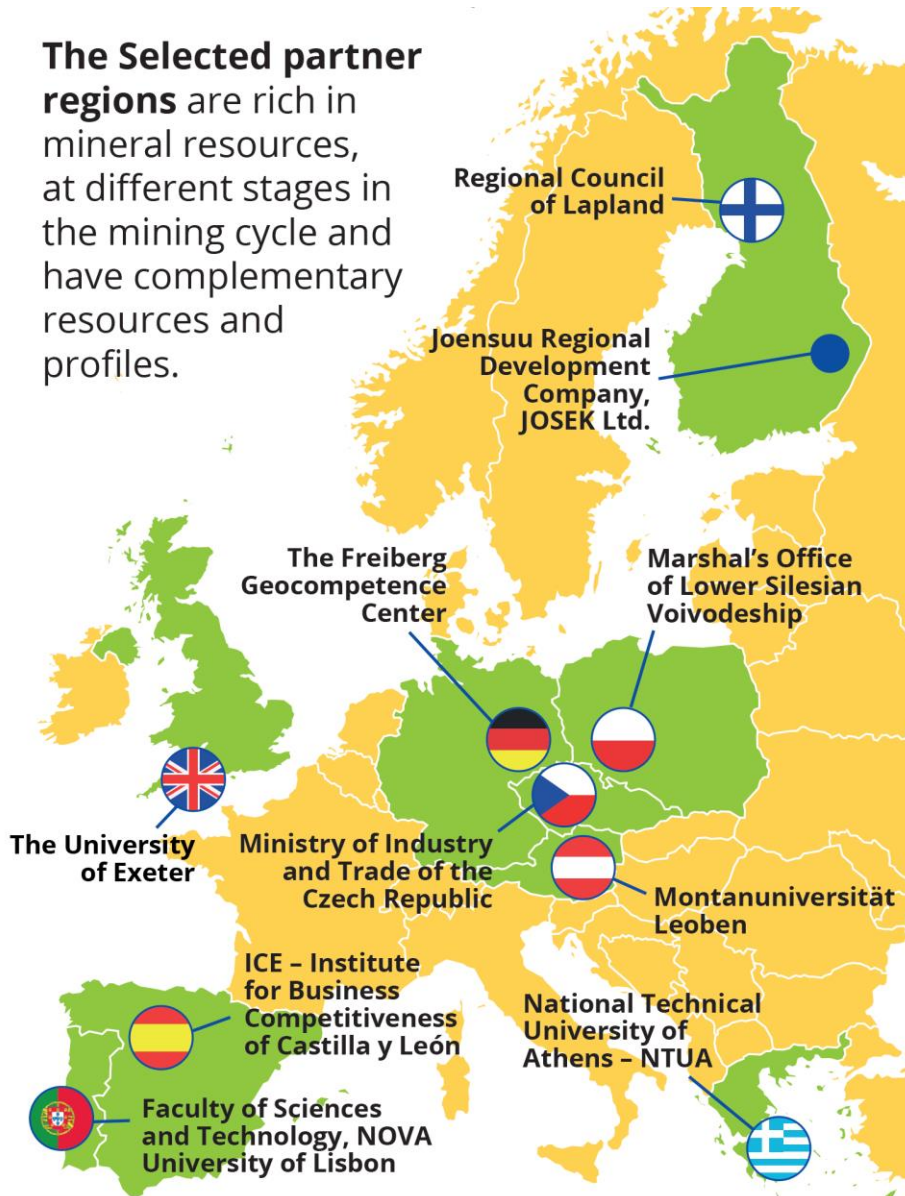

8 Policy Instruments

Phase 1, 30 months (Jan. 2017 – June 2019)

Phase 2, 24 months (July 2019 – June 2021)

Total budget 2 050 805€

The Selected partner regions are rich in mineral resources, at different stages in the mining cycle and have complementary resources and profiles.

Partner Policy Instrument under review

CENTRO2020 Operational Programme

REMIX
Interreg Europe

Strategic goals

To exploit the synergies between the participating regions and jointly:

- Advance the sustainability of the mining sector
- Improve the cumulative impact to the regional development through innovation
- Increase the regional SME growth and innovation capacity development
- Involve the regional RDI
- Develop dialog between regional and industrial policy making in the EU context

REMIX
Interreg Europe

How do we get there

The project follows the three main procedures, defined by the programme:

1. Learning from good practices
2. Interregional collaboration
3. Interregional communication

REMIX

Interreg Europe

Regional stakeholder work

Communicating the achieved knowledge and good practices and utilising it for the improvement of the policy instrument.

Interregional learning and knowledge transfer

through project meetings, workshops, peer review visits and two mining conferences

Importance of the project in EU

The project answers to the need for collaboration between European Commission and regional policy makers to develop complementary approaches, which will boost EU competitiveness and stimulate sustainable development, growth, jobs and new SME industries.

To implement the policy into practice the regions with the mineral resources will have a strategically important role in the development of sustainable mining industry.

Schedule for REMIX Peer Review Visit Tuesday, December 11th
