Keeping it simple: Phase 2 lump sum

A. Niechajowicz / A. Bellemin

21 January 2020 | LP seminar, Budapest

Content

1. What is the lump sum?
2. The why and how
3. What you need to deliver
4. What it means for phase 1 closure

1. What is the lump sum?

- Phase 1: refund of real expenses (eligible costs incurred and paid out)

Activities implemented → costs incurred → refund of costs

1. What is the lump sum?

- Phase 2: payment of a single and fixed amount for the delivery of known outputs

Activities implemented → all outputs achieved → lump sum paid

1. What is the lump sum?

- EUR 17,000 per policy instrument addressed (not per partner)
- Covers all costs (staff, office and admin, T&A and EE&S) necessary to carry out the predefined phase 2 activities
- Payment upon the completion of several outputs with minimum requirements

2. The why and how

Remove obligation of real costs reporting
→ Reduced risk of audit errors

Optimize time available during phase 2
(one year only)

→ More time for activities

Reduce administrative burden

2. The why and how

- Amount based on data from all 1st and 2nd call projects
- Allocated to the LP's budget and paid with approval of last PR
- Shared among the partners on the basis of the project partnership agreement

2. The why and how

- Allocation to LP for entire project

- ✓ Partners share internally
- ✓ In respect of different cost levels + roles in project (LP, final conference organizer, AP, 2 partners from same region, etc.)

3. What you need to achieve/ deliver

3. What you need to achieve/ deliver

**Achievement
of ALL outputs
=
Payment of
lump sum**

**ALL or
nothing!**

3. What you need to achieve/ deliver

- No supporting documents needed to prove that costs have been incurred
- FLC performed by the JS
- Supporting documents proving the delivery of phase 2 outputs to be sent to the JS

▶ Check out **section 7.4** programme manual

4. What does it mean for Phase 1 closure?

- Make sure all costs related to phase 1 are included in the last PR of phase 1 (paid out)
 - Do not schedule content-related activities in the last 3 months of phase 1
- No delayed payments possible in phase 2
- No extension of phase 1

Time for questions
