- Stakeholders involved: local, regional and national public offices, universities, research centres, associations of public and private companies

Evidence of success:

- Results achieved so far:
 - shared development of General and Local Policy instrument evaluation Methodologies
 - Ongoing selection of a first set of selected Policy Instruments Good Practices and Failures in supporting innovation in waste management
- Stakeholders acceptance: project local stakeholder are contributing to Smart Waste activities through suggestions and proposals on Projects past, ongoing and future outcomes – COVID-19 pandemic is making Stakeholders involvement quite hard, due to multiple factors

Lessons learned:

- Key success factors: close cooperation among project partners, stakeholders and selected policy instruments Managing Authorities
- Negative aspects: COVID-19 current pandemic related challenges for current stakeholders involvement & project communication
- Challenges: adapting project activities, as per application form, to COVID-19 pandemic related constraints
