CLEAN project partners closer to achieving their goals!

With the CLEAN Regional Action Plans, we are progressing towards greater energy efficiency in housing and public infrastructure.

Welcome to the third newsletter of CLEAN, an interregional project to increase energy efficiency in housing and public infrastructure by 4% through technology, open innovation and improved low-carbon policy instruments. The project is supported by [Interreg Europe](#) funding programme.

Three CLEAN project partners received additional funding to implement their Pilot Actions!

During the Regional Action Plan development, representatives from Interreg Europe highlighted that CLEAN project partners ERNACT, Fomento San Sebastian and Les 7 Vents were eligible for additional funding that would aid the implementation of one of their region's Pilot Actions.
