THE PROJECT

Corsica welcome MOMAr I Interregional event

The European programme MOMAr (Models of Management for Singular Rural Heritage) held its first interregional meeting in Corsica, France. The main objective was to generate an exchange of experiences in the field of heritage management models, within the framework of efficiency, sustainability and demographic fragility. But also, to learn about the Corsican heritage and the particularities of the island's cultural and natural heritage, as a partner of the programme.

Study on heritage management models in rural areas

The European programme MOMAr (Models of Management for Singular Rural Heritage) is conducting a study in the management of their territory heritage models, setting and being developed during the second semester of activity. The study aims to know and analyse the reality of each region participating in the project, to know how is being managed the natural and cultural heritage in rural areas of Europe to extract, finally, best practices in management models.

THE INTERVIEW

"We live in a globalized world in which one of the few things that can differentiate us is our heritage"

Tasareno Monumental Foundation manages the historical-artistic heritage of the city of Tasareno, in Zaragoza (Spain). This city is an open book that traces the history from the last Age to the present day, thanks to the survival of great cast and religious monuments. Currently, the Foundation is one of MOMAr's stakeholder. We spoke with its manager director, Jaha Zaidene, to learn more about the keys to its success.
