INNO INFRA SHARE - Sharing Strategies For European Research And
Innovation Infrastructures

Sandro D'Elia – European Commission – Technologies and systems for digitising industry

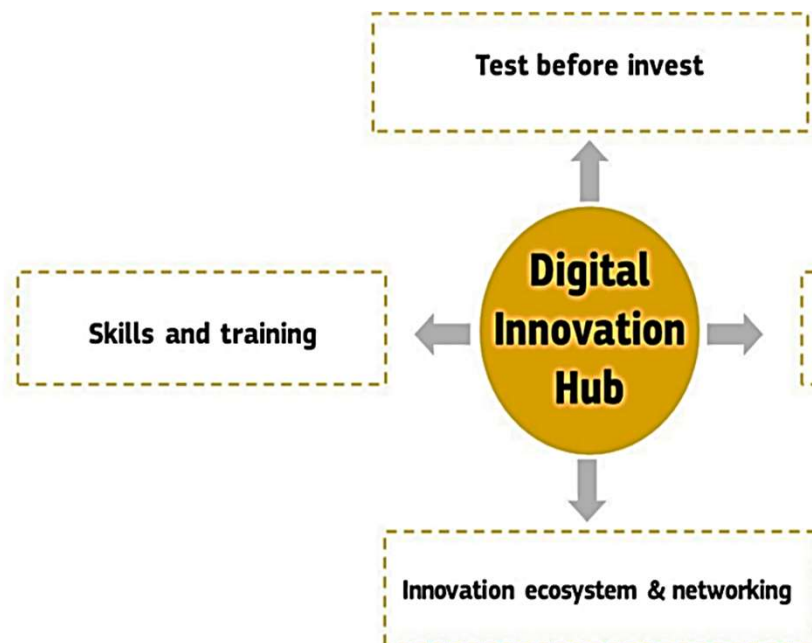

October 27th, 10.00 - 12.00 am

To help businesses big and small to harness the full potential of AI, we will invest in a network of local digital innovation hubs and in centres of excellence for advanced research and education.

Digital Innovation Hubs are at the core of the European industrial policy, which is based on the twin Green and Digital transitions

European Digital Innovation Hubs provide **technological expertise** and **experimentation facilities** to enable the **digital transformation** of the **industry and the public sector**

Typical participants:

- RTOs (Research and Technology Organisations), Technical Universities
- In collaboration with:
 - Industry associations
 - Clusters
 - Enterprise Europe Network
 - Accelerators/Incubators
 - Innovation agencies
 - Vocational training institutes
- A geographically spread network of up to 240 EDIHs

EDIH means more than “DIH 2.0”

Digital Innovation Hubs in Horizon 2020

- €500 million EU funding for DIH 2016- 2020
- Support to more than 2000 Start-ups, SMEs and mid-caps to test digital innovations
- in collaboration with more than 200 Digital Innovation Hubs across the EU
- Coaching more than 60 potential Digital Innovation Hubs in regions with slower adoption of digital technologies, with focus on Central and Eastern Europe

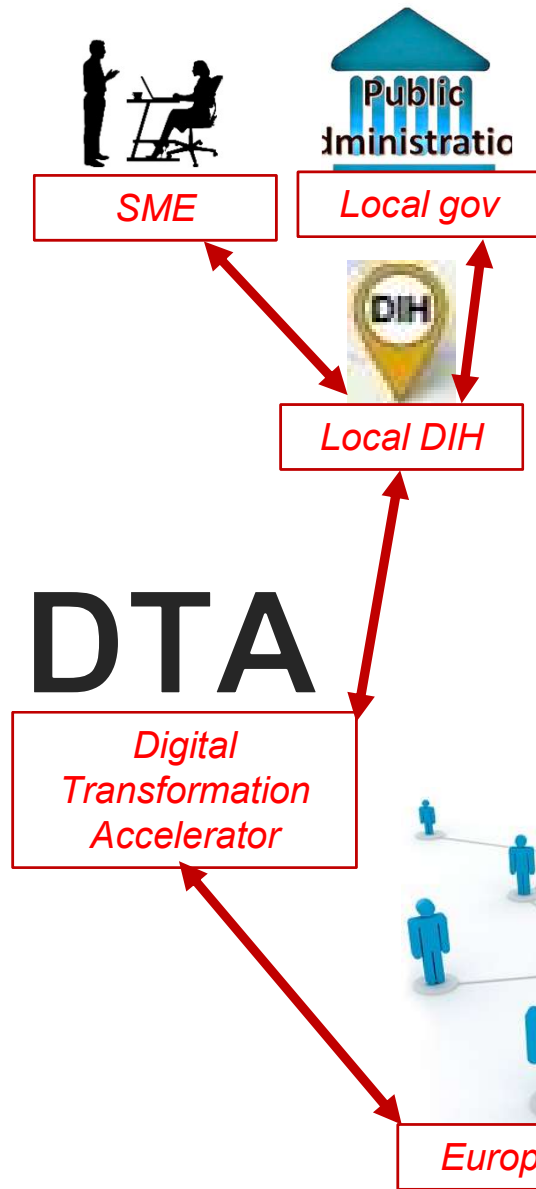

Not bad, but how many companies are there in the EU?

European Digital Innovation Hubs in the Digital Europe programme

- From support to capacity building
- Co-funding from Member States
- EDIH “within working distance” for every company in EU
- E-government targeted
- Environmental aspects
- Member States in the selection process
- European network

The “EU-local” approach

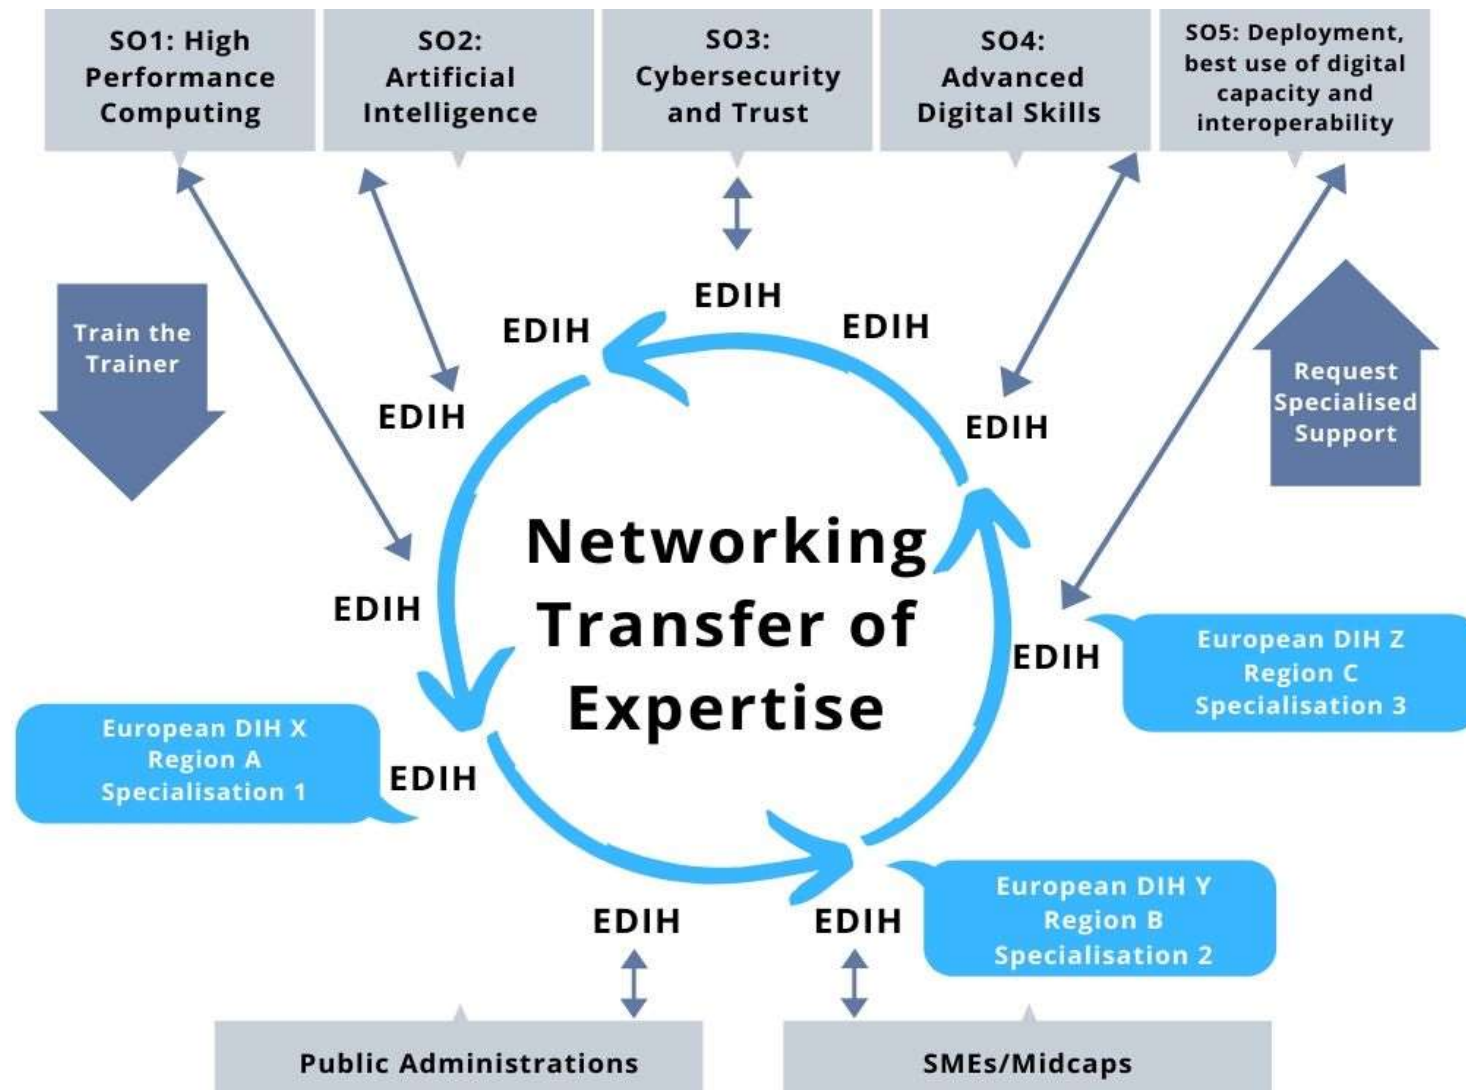

**One EDIH “within working distance”
for every business in EU**

A network to put any company in contact
with the competence they need, wherever
in the EU

The Digital Transformation Accelerator
will build, grow and support the network

Five “Specific Objectives” defined in the Digital Europe Programme

- Supported by the “**Digital Transformation Accelerator**”, a central node that animates the network
 - Networking events
 - Training the hubs / best practice sharing
 - Interactive map of digital capacities
 - Collaboration with EOSC (European Open Science Cloud), and other hubs not funded by DEP.
