

RECOBIN

Complex waste management

SOCIAL SEEDS CONFERENCE

Attila FERENCZI | 2020.11.18.

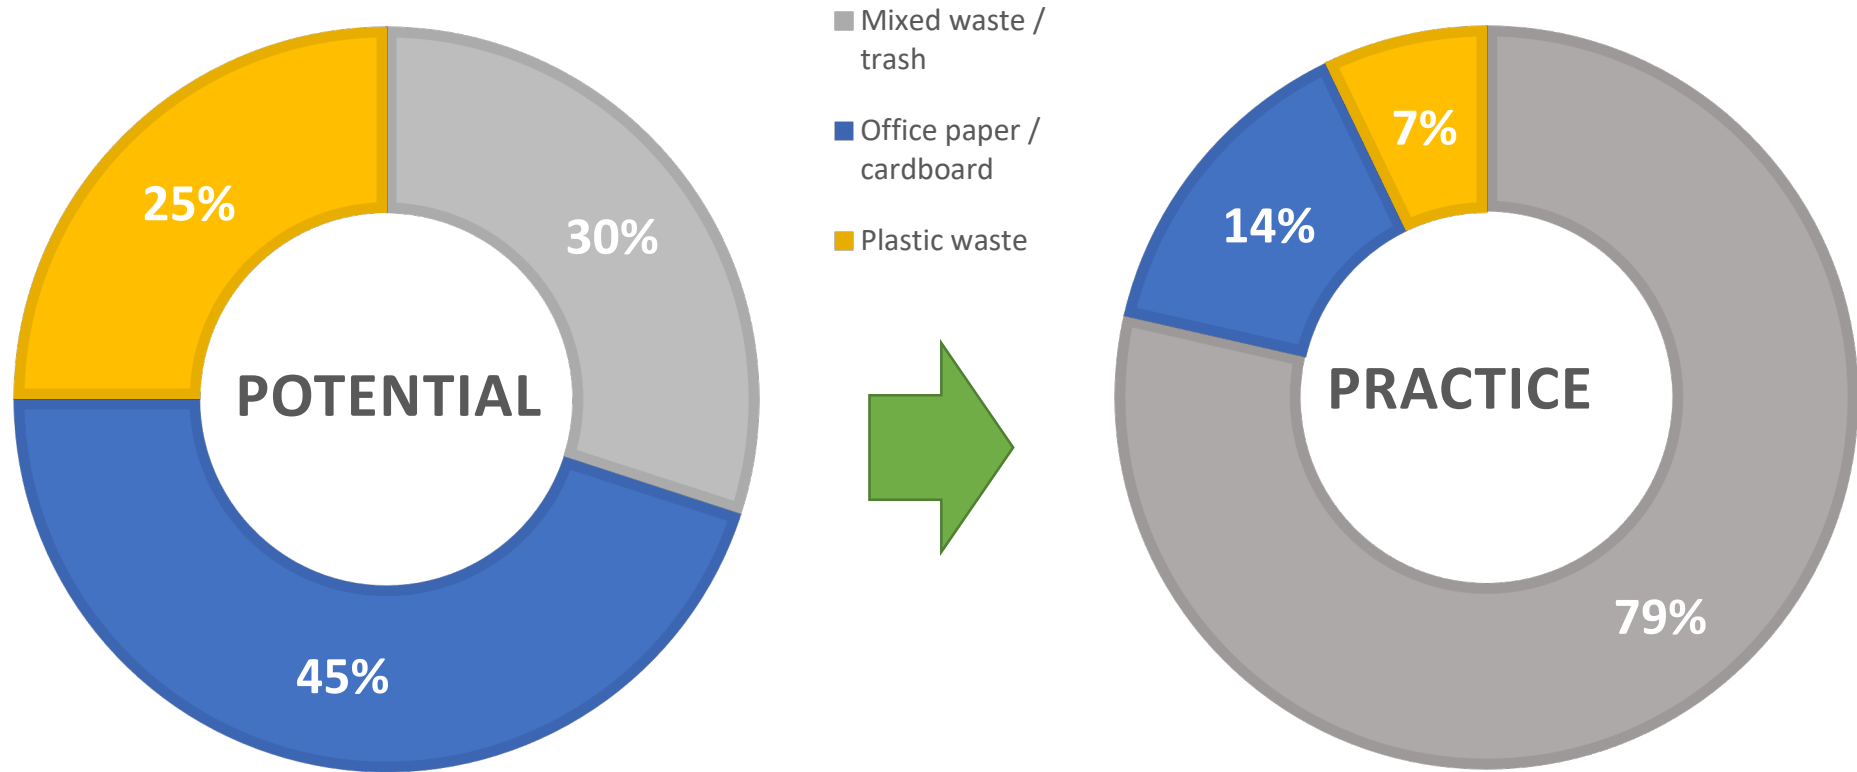

**„ALL ‚GREEN’ / SOCIAL RELATED
INVESTMENTS & PROJECTS AND
SERVICES HAVE TO BE FINANCIALLY
SUSTAINABLE AND COMPETITIVE TO
NON SUSTAINABLE SOLUTIONS**

**- THAT’S EXACTLY WHAT RECOBIN
DOES”**

THE WASTE ISSUE

- × Recycling in office spaces and in households is insufficient
- × According to different waste recycling methods there is no ,handbook'

WHAT WE DO

- ✓ Recobin provides a complex waste management service in order to achieve higher recycling rates
- ✓ We contract office buildings / asset management companies
- ✓ Indoor waste recycling solutions, tools, and education
- ✓ Secondary waste separation and transportation
- ✓ Monitoring and data analysis / support

HOW WE DO IT

- ✓ Fixed-term contracts (~1000 EUR / building)
- ✓ Significant reduction on communal or „mixed waste” costs
- ✓ With ZERO investment we help transition towards a ‚green-mode’
- ✓ Project assignments (universities, schools, and unique projects)

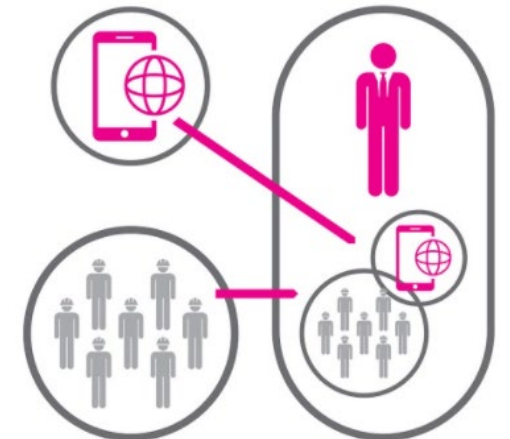

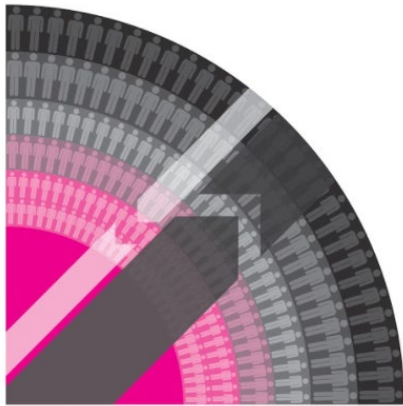

SOCIAL IMPACT

Manual workforce is necessary in order to reach such recycling rates for various reasons.

Workforce recruitment is based on a unique social integration programme.

We train and employ people with social disadvantages (eg. Homeless, Released, etc)

BRIEF HISTORY of RECOBIN

15 employees
40 000 EUR /yr net income
30 contracted companies

WHERE ARE WE NOW?

.....

✓ Recobin-model is viable on other markets (eg. Vienna 3x, Prague 1x)

✓ We are already working with the biggest asset management companies on 30 sites in Budapest

✓ Recently looking for expansion possibilities in Europe

SUSTAINABLE MODEL

ENVIRONMENT

SOCIETY

ECONOMICALLY

The slide features decorative geometric patterns in the corners. The top-right corner has a cluster of overlapping squares and diamonds in shades of green and brown. The bottom-left corner has a similar pattern in shades of brown and tan. The text is centered on a white background.

THANK YOU FOR YOUR ATTENTION!
