The main goal of the first LSG meeting was to present to the main associates of AIMRD (the members of the association board) the project: its objective, its activities and the expected results.

Special attention was dedicated to present the add-value of the project for Castilla and León territory and to the management of the Duerto river. With this regard, it was made a general presentation of the project partners and how these partners can support the local agents in improving the Duero river management.

It was also explained that a close relationship with the policy instrument managing authority will be fostered and that they will be involved as much as possible in the project activities.
