LSG Meeting Conclusions

A. Summary of the meeting

Executive summary of the meeting minutes

The main goal of this meeting was to present to the managing authority of the policy instrument addressed by AIMRD in the project BIGDATA 4RIVERS the objective, activities and expected results of the project and raise this authority awareness about the key-role they will have during the project implementation.

The managing authority representatives were opened to participate in the project activities and support AIMRD in the development of the contents related with the Duero river management and with the quality of the water in the Castilla and León region.

One main problem was identified during this meeting: how to assure in an efficient investment (including at the level of the value for the money) in the treatment of the wastewater (reducing its impact in the Duero river) in small settlements (with low population).

B. Recommendations of the LSG

Not applicable (no study visit or exchange of experiences activities were held until de moment).

No recommendations had been made regarding possible good practices to share with the other partners.

C. Information Request

No requests of additional information had been made.
