

MOMAR | THIRD REGIONAL STAKEHOLDER MEETING IN SAXONY-ANHALT

On 28 January 2021, the Ministry of Regional Development and Transport of Saxony-Anhalt hosted the third meeting of the regional stakeholder group of the [MOMAr project](#). In addition to providing updates about the latest developments within the INTERREG MOMAr project, the hosts arranged for enough room to exchange about activities and measures that were taken among the actors in Saxony-Anhalt in order to meet the challenges of the Covid-19 pandemic. The participants presented some very inspiring, committed and creative ideas and projects, some of which might have the potential for a follow up and could be valuable good practices to share with the TRANSROMANICA and Cultural Routes networks as well.

TRANSROMANICA Managing Director Christin Leser was also invited to share her experiences and provide the participants with some insights into the current work of the association and the networks as well as the latest developments of the [H2020 IMPACTOUR](#) project.
