TRIS project final meeting

Eszter Nyari

Herman Otto Institute Nonprofit Ltd.

24th February 2021

Budapest

Conference

Circular economy: where everybody wins

Participants got an overview of:

- Good practices
- Green procurement rules
- Financial tools and possibilities

Display of companies implementing industrial symbiosis and circular economy

Joining the Circular Economy Platform

- **HOI participates in various activities and also joined the Circular Economy Platform together with IFKA founded by BCSDH which is an economy development, innovation and company cooperation initiative aiming to enhance and accelerate the conversion to circular economy in Hungary**
- **Focus is on good practices to contribute to the rise of resource efficiency of Hungarian companies, to reduce the use of natural resources and to enhance the importance of maintenance, repair, reuse, refurbishment, etc.**
- **Aim is to promote the identified interregional good practices and the actions of the Hungarian regional action plan during the events organized in the future.**
- **This forum is an important platform to spread the word, to keep TRIS project results in the loop.**

Publication- Bring yourself into circularity

Útmutató kku-k részére
a körforgásos gazdaságról

Info about the publication

Table of content:

- **Tool for SMEs**
- **Highlights the difference between linear and circular economy**
- **How can we join to circularity**
- **Steps to take: presenting TRIS**

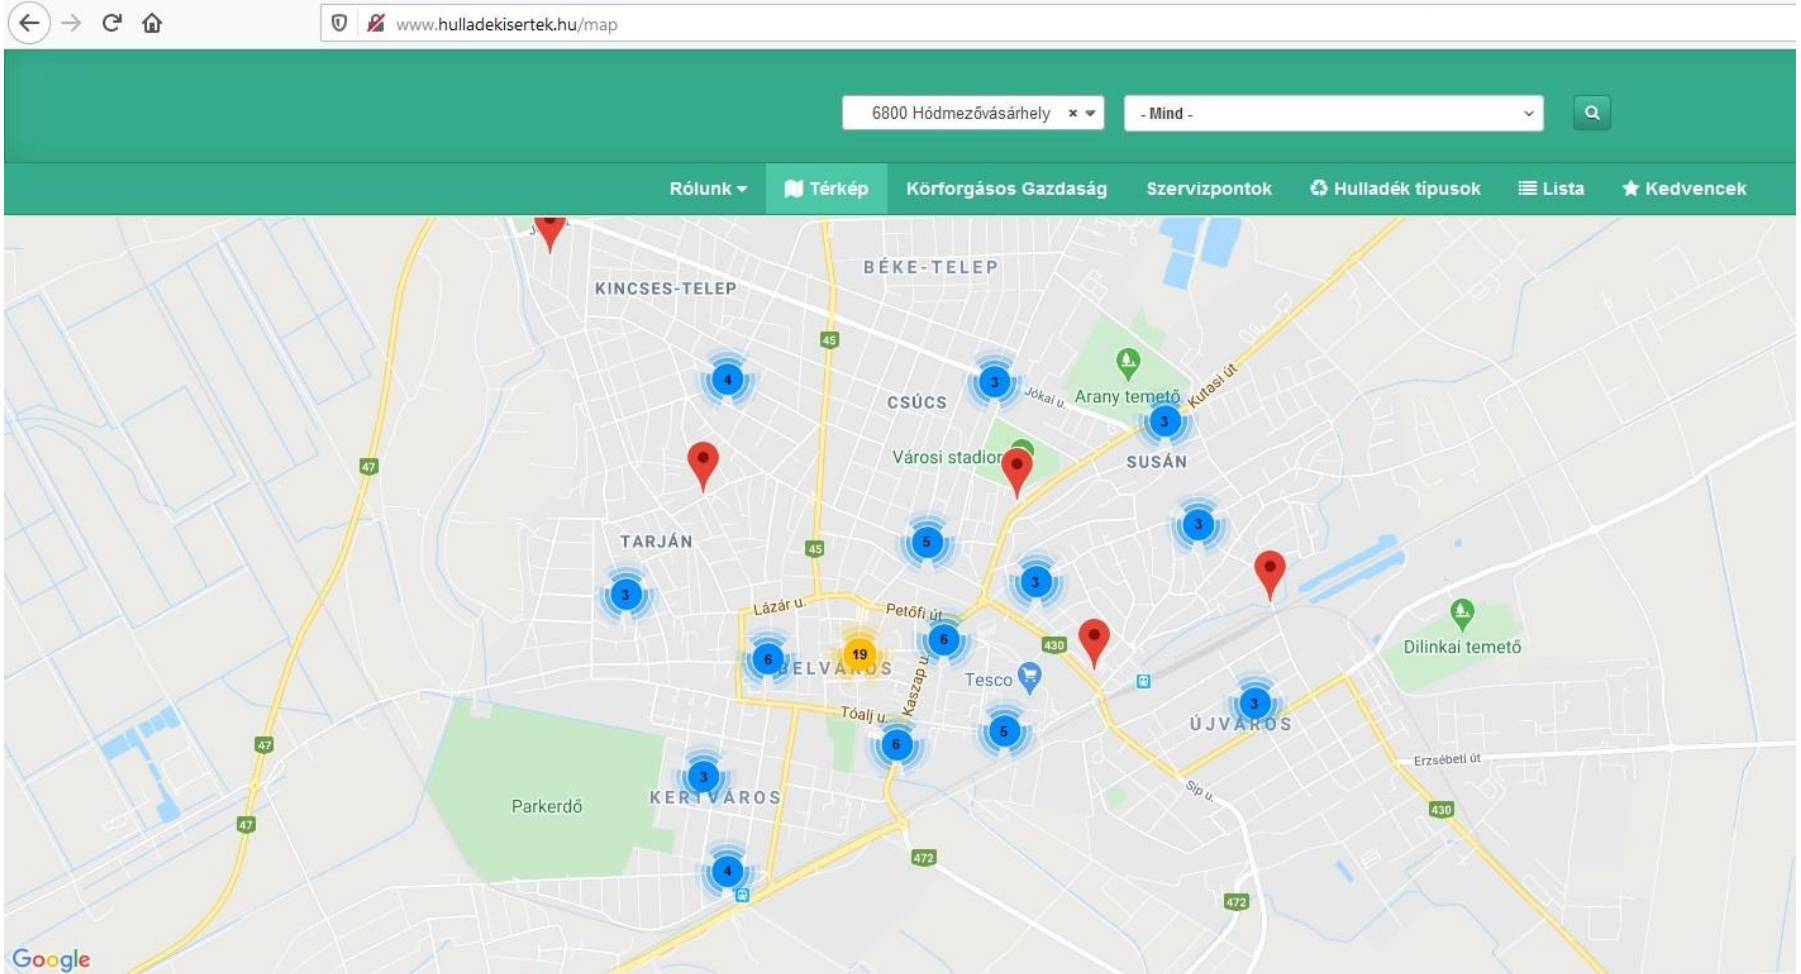

- **Ca. 400 paper copies disseminated at conferences**
- **Electronic version downloaded half a hundred times**

Environmental awareness of the public

www.hulladekiserterek.hu (waste is value)

- **Herman Otto Institute Nonprofit Ltd. strives to disseminate information about waste management and circular economy to all age groups**
- **The modern waste management principles should also be well known to the public. To achieve this, based on the Italian example <http://www.economicircular.com>., one of the counties of Hungary (Csongrád county) has been chosen to develop an online information page, which is a reuse-recycling website**
- **The website contains an information database for the public on waste takeover spots, collection spots, and all important information on collecting waste.**

Website

Follow up projects and conferences I.

Local government of Borsod-Abaúj-Zemplén County: series of workshops about disseminating information on industrial symbiosis in the northeast region of Hungary with a social focus (job opportunities for the disadvantaged),

Circlean project: Kick-off meeting on 23.02.2021., extend IS in several countries, harmonizing definitions and methodologies, enhancing networking among participant organizations.

Follow up on projects and conferences II.

Cooperation between HOI Nonprofit Ltd. and:

- **IFKA Nonprofit Ltd. (previously: Circe, Fissac and more ahead),**
- **Ministry for Innovation and Technology,**
- **EPA Network (Bellagio declaration on economic indicators to measure the transition towards a circular economy and to monitor principles through developing a monitoring system).**

**THANK YOU FOR YOUR
ATTENTION!**
