

ABOUT CIRCPRO PROJECT

CircPro (Smart Circular Procurement) is an Interreg Europe funded project which aims at promoting the transition to a more circular economy related national and regional decision-making by increasing the implementation of the circular procurement. Partnership consists of 11 partners from 10 regions.

Seventeen CircPro Good Practices published

The CircPro project partners have identified a number of good practices (GPs) from the partnership regions that could boost implementation of the circular procurement.

While some GPs are yet in the middle of the evaluation process, eleven GPs have already been recognised by thematic experts of the Interreg Europe Policy Learning Platform as potential sources of inspiration and learning for European policymakers and have been published in the Policy Learning Platform Database.

CircPro webinar on circular procurement and initiatives in the agrifood sector on June 9

On the 9th of June, 2021 CircPro Italian partners Region Piemonte and University of Turin will host an interregional webinar focusing on circular procurement and initiatives in the agrifood sector. The morning session of the webinar at 9.00 – 12.00 (CEST) will include presentations by experts of the European, Italian national and Piedmontese levels. The afternoon session will be dedicated to sharing CircPro project partners' best solutions developed locally within the topic framework with the support of their regional stakeholders.

Findings from the CircPro webinar on sustainable transport and mobility solutions via circular procurement

Transport is one of the main polluters in the European Union that accounts for a quarter of greenhouse gas emissions of which 90% should be reduced by 2050. At the same time, mobility has an important role in development policies and strategies of both urban and rural areas. In February 2021, Lithuanian Innovation Centre hosted an interregional learning webinar where good practices related to sustainable transport and mobility solutions via circular procurement were shared among the CircPro partners and stakeholders. Find out more on what was discussed.
