Basque Foundation for Health Innovation and Research (BIOEF)	2 nd of December 2020	One	BIOEF	Koldo Piñera	<p>According to the action plan of our region, a deep analysis of our ecosystem (SWOT) was required before developing the R+D+I Program of Ageing.</p> <p>During the session of 2nd of December, the SWOT analysis was contrasted and validated, with the participation of the aging ecosystem agents. Subsequently, a first approximation of a possible structure of subgroups/axes for the Working Group on Aging was shared.</p> <p>This structure was unanimously endorsed by all attendees through the WOCLAP interactive platform. This platform allowed each of the participants to contribute their vision on whether they considered the structure of the Working Group on Aging around four subgroups/axes to be correct, which are Person, Environment/Community, System and Technology (transversal to the previous ones, Illustration 1), and</p>
