for supporting the transition to a low carbon economy

Energy transition in South Muntenia, Romania

Interregional Workshop and virtual study visits

June 09, 2019 – online, Romania

CONTENT

SOUTH MUNTENIA REGIONAL DEVELOPMENT AGENCY

MAIN ACTIVITIES

- ✓ Management Authority for REGIO – 2021 – 2027 Regional Operational Programme, financed by ERDF;
- ✓ Intermediate Body for REGIO – 2014 – 2020 Regional Operational Programme and also for 2007 - 2013, financed by ERDF;
- ✓ Intermediate Body for SOP IEC – 2007 – 2013 Sectoral Operational Programme “Increasing of Economic Competitiveness”, financed by ERDF.
- ✓ ROP – REGIO implementation
- ✓ Regional Planning, Programming, Monitoring and Projects portfolio;
- ✓ Regional Information, Promotion and Investments;
- ✓ Development of local/regional partnerships;
- ✓ Evaluation, selection and contracting of projects;
- ✓ Monitoring the projects with Regio funding;
- ✓ Verifying projects.

SM RDA Policy addressed within SHREC project

2014 – 2020 Regional Operational Programme,

Priority Axis 3

Support the transition towards a low-carbon economy

Investment priority 3.1

Supporting energy efficiency, smart energy management and renewable energy use in public infrastructures, including in public buildings, and in the housing sector.

Investment priority 3.2

Promote strategies to reduce carbon dioxide emissions for all types of territories, particularly urban areas, including the promotion of sustainable urban mobility plans and relevant measures.

SM RDA Policy addressed within SHREC project

Investment priority 3.1 Supporting energy efficiency, smart energy management and renewable energy use in public infrastructures, including in public buildings, and in the housing sector.

3.1 Operation A –
Photovoltaic Systems
Residential buildings
UE SDR

3.1 Operation B –
Public buildings

3.1 Operation C –
Public lighting systems

Eligible activities:

- improving the **thermal insulation and waterproofing** of the building enclosure (the exterior walls, windows, frames, different floors, including the one over basement), the framing and coating, including consolidation work;
- rehabilitation and modernization of the **distribution system for heating and domestic hot water** - which are shared facilities in apartment buildings;
- modernization of the **heating system**: repairing / replacing the apartment building's shared boiler;
- use of **renewable energy sources**, to ensure the building energy requirement;
- replacing fluorescent and incandescent light bulbs in shared spaces with energy efficient and long life ones;
- replacing lifts and electric circuits in shared areas such as stairs and basements;
- implementing energy management systems aimed at improving energy efficiency and monitoring energy consumption.
