7th October 2021 Save the date: Final conference FC4EU!

For five years, we collaborated with 5 European regions, to realize innovations in the food chain. This to make the food chain more sustainable and to guarantee sufficient food supply for future generations.

During the **final conference on the 7th of October**, that will be an online event broadcasted from Food Forum in Almere, all regions will present their results in an interactive way. Also we will look ahead at what is needed to further innovate the food chain.

We hope to see you then! [More information](#) will follow in August.

The FC4EU project partners are Flevoland (NL) - project leader, Greater Manchester (UK), Plovdiv/Sofia (BG), Maramures (RO) and Emilia-Romagna (IT).

For more details about the FC4EU project and our international partnership, you are invited to visit the project website:
