

# NORTH-EAST REGION OF ROMANIA ROADMAPS

**Step 1**  
Raise awareness among primary and secondary school, by developing education activities for early talent development in the field of water resources management and water technologies

**HUMAN CAPITAL**

**SELF-ASSESSMENT**

**Step 1**  
Setting strong Regional Action Groups based on order to raise collaboration and critical mass in the water sector

**CRITICAL MASS**

**INTERNATIONALIZATION**

**Step 1**  
Dissemination of best practices regarding innovative technologies in the water sector at regional level

**Step 2**  
Regional Action Groups collaborative training programs

**Step 3**  
Continuously search for funding synergies at national and international level for the development of research and innovation capacities and adoption of advanced technologies

**Step 2**  
Collaborative project proposals based on regional needs

**Step 2**  
Strengthening critical mass and becoming more active in interregional and cross-border cooperation

**Step 3**  
International cooperation, especially with the university environment, for the exchange of experience, improvement and specialization of human resources in innovative projects specific to the field of water

**Step 3**  
Stimulate the participation of the regional stakeholders in the project consortia within Water Smart Territories action groups

**Higher level of  
Water Technology  
Innovation Ecosystem**
