LSG Meeting Conclusions

A. Summary of the meeting

Presentation of new participants in the stakeholder group. Fia Sundin is a new representative for Motala municipality and Robin Abbey-Lee is the new representative for CAB as Sara is leaving in January.

A short summarization of the project purpose, aim and deliverables were made and how we are supposed to proceed.

Action plans and matchings were discussed, the stakeholder group was asked to participate in the process and if any of the selected practices were of special interest to specific partners. It was agreed that the stakeholders will send any feedback regarding matchings, selected good practice interest and action plan content at latest 15th of December.

The project schedule was also presented as of current state where the stakeholder group was encouraged to participate in the coming events at matchings, Study visits and workshops.

Next meeting was set to 10th of May 2022 at 13:00-14:30.

B. Recommendations of the LSG

The stakeholder group will give feedback if selected good practices to implement in the action plans are of interest. Our new representative from Motala Municipality will look through the database of good practices and evaluate if any are of interest.

They will try to join the study visits and give feedback on the action plan drafts to come in January.

C. Information Request

Still there are difficulties in participating in the meetings as the study visit invitations have been late and difficult to include in the stakeholder's schedule.
