

NEWS FROM RIVERSIDE CITIES NETWORK

Invitation to the virtual learning session on Environment & Sustainability in river tourism development

The fifth **Interregional Learning Session** of STAR Cities will be hosted **online** by the **Regional Development Agency of the Ljubljana Urban Region (RRA LUR)** on April 20 and 21, 2021. The event will focus on the themes of **Environment and Sustainability**.

River tourism is inseparably linked with the river itself, the riverbanks and their natural heritage. Moreover, river tourism is identified as "ecotourism" but river tourism products are not always so sustainable. How to find the balance between tourism development and protection of nature is the main question to be discussed during the next learning session.

The agenda includes good practices presentations and workshops. Discover the full program and register to the webinars !

Thematic workshop

6 May 2021 – 9 AM-12:00 PM
Action plan workshop

THE RIVERSIDE CITIES NETWORK

STAR Cities is implemented by the **Riverside Cities network** which brings together local regions wishing to develop or redevelop recreational activities along rivers or waterways in an urban environment. Its members are all keen to increase awareness of this alternative to traditional tourism in European cities.
