

Regional Stakeholder Group Meeting 2021 11-03 & 10-06

Partner/Region :	Date:	Round :	Participants:	Main outputs:
Province of Noord-Brabant	Online, 11 March 2021	Round 1, phase 2	80 regional stakeholder's organizations: universities, local governments, national departments, entrepreneurs, investors.	<p>The province of Noord-Brabant, together with these stakeholders, signed the City Deal on Impact Entrepreneurship, which is aimed to reduce the obstacles encountered by impact entrepreneurs in order to promote impact entrepreneurship.</p> <p>During the Global Goals Meet-Up of VNG International on March 11, State Secretary Mona Keijzer of the Ministry of Economic Affairs and Climate (EZK) gave the go-ahead for the 27th City Deal: Impact Entrepreneurship. "With their choices, entrepreneurs can have an impact on the world."</p> <p>The setting was international during the meeting of the VNG on the United Nations' sustainability goals, the SDGs. However, it was not entirely coincidental that the kick-off of the City Deal took place here. The sustainable and inclusive economy of meaning envisioned by the City Deal Impact Entrepreneurship, together with municipalities, provinces, central government and entrepreneurs, gives substance to the 17 global goals. Whether it concerns waste reduction, health, sustainability or poverty alleviation in neighbourhoods, impact entrepreneurs make a positive social contribution through their work.</p> <p>The cabinet wants to give these social entrepreneurs ample scope, Keijzer announced. That is why she is working on a separate legal form for these entrepreneurs, the BVm, a social BV.</p>

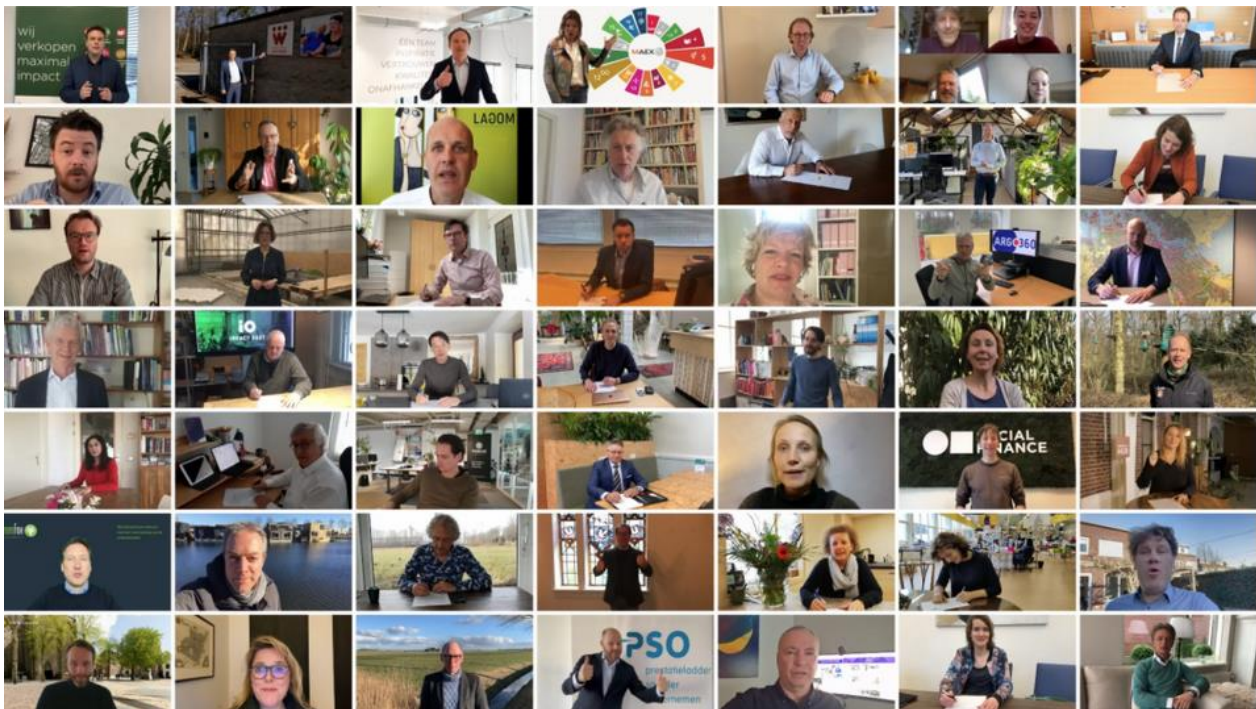

<p>Province of Noord-Brabant</p>	<p>Online, 10 July 2021</p>	<p>Round 1, Phase 2</p>	<p>20 private investors who are interested to know more about BOF2, names are confidential</p>	<p>“With this we recognize these social entrepreneurs and financiers, governments and consumers can also recognize them more easily. Then you know even better who you are working with.”</p> <p>The government also wants to make doing business easier for social entrepreneurs through better cooperation between governments. So that they are sent from pillar to post less often and that better networks of social entrepreneurs are created. There will also be a liaison officer who will more easily bring social entrepreneurs into contact with the right experts. “And to clarify exactly what corporate social responsibility is, we want to set up an unambiguous measuring instrument,” adds Keijzer. “That’s why I’m so happy with this City Deal. That amplifies this movement from below. If knowledge institutions, ministries, local authorities and financiers can better find each other, social entrepreneurs will be better able to do what they excel at: doing business with a heart for a good cause.”</p> <p>This was an online meeting to exchange with potential private investors about the possibilities and doubts of cooperation in the 2nd investment round of BOF2. 20 participants have participated during the session, and more than 100 participants viewed the session afterwards.
