Regulatory framework and support for sustainable public
procurement in France

Alexandra Lamotte – Sustainable Public Procurement Project Manager
Ministry for Ecological Transition

17th of February

A Global Approach

**A systemic sustainable procurement approach,
applicable at different stages :**

Entry into force is scheduled for 2026 at the latest

A Sectoral Approach

Credits: MTEB

A national plan to support this strategy

Objectives :

By 2025, 100% of public procurement contracts with AT LEAST one environmental aspect and 30% with AT LEAST one social aspect

2 axis :

- Help buyers to take on the objectives of the national plan for sustainable procurement (PNAD)
- Mobilize, animate, promote and monitor the PNAD

22 actions
