# Policy instruments addressed

ERDF Navarra 2014 - 2020. Priority axis 4. To enhance the transition to a low carbon economy in all the sectors.

Region Law 2/2018 on Public Contracts

Navarra Waste Plan 2017-2027

# Law on Public Contracts

**ACTION 1:** Approval and starting steps for the implementation of the Green Procurement Plan

**ACTION 2:** Selection of a group of products or services with environmental considerations

# Action 1: GPP Plan

Currently a draft version

- 1. Starting process for the approval of the plan: Initiate the Regional Order and a public consultation**
- 2. Approval of the plan**
- 3. Starting steps for the implementation of the GPP Plan**
  - Training and accompaniment to the personnel of the Public Administration
  - Market involvement in promoting GPP
  - Integration of the GPP in the existing tools and development of own material
  - Communication

# Action 2: environmental considerations in tenders

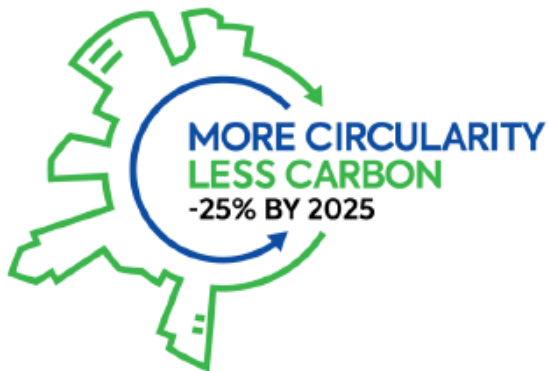

- 1. Identify groups of products or services where environmental considerations could be applied.**
- 2. Set the environmental considerations for each group**
- 3. Promote these considerations through public purchasers**

# Waste Plan 2017-2027

## **ACTION 3: Carbon footprint assessment of household waste of Navarra**

Assesment of year 2016, 2019 and 2020

Navarra has the possibility to choose between two strategies to reduce by 25% its carbon footprint:

- Reducing by 40% textile waste, 25% food waste, and 20% the other targeted materials (i.e., plastics, paper and cardboard, and healthcare waste, comprising mostly of sanitary textiles);
- Introducing a waste reduction target of 25% for all materials
