Vicky Amenta	Managing Authority of Attica ROP 2014-2020
Vicky Karavangeli	Technical advisor, RDFA
Christos Pappous	Municipality of Fyli, Region of Attica
Marina Nikolopoulou	Municipality of Fyli, Region of Attica

B. Agenda

Copy of the agenda of the meeting

RDFA send an email to its stakeholders and invited them to participate in 6th LSG meeting at premises of Municipality of Fyli. Municipality of Fyli is the intervention area of Attica, in which the Action that is designed in RDFA's Action Plan, will be implemented. Then RDFA contacted stakeholders and sent them material related to the final Action Plan of Region of Attica that is approved and their participation in the Interregional Workshop in Brussels, on 15/06/2022.

C. Duration

The meeting was started at 11:00 and ended at 13:30.

LSG Meeting Conclusions

A. Summary of the meeting

Executive summary of the meeting minutes

The meeting began with the presentation of the status of the BIGDATA 4RIVERS project and the approved Action Plan of Region of Attica.

Then, the LGS members discussed about the implementation of the Action that is developed in RDFA's AP and its title is:

- Development of a pilot - research early warning system of flood in buffer zones

The Action that RDFA wants to implement, will be funded by ROP 2014-2020 and it will be a subproject of the main project that it is already integrated and funded by ROP 2014-2020 by the title: Regional Plan for the Adaption to Climate Change (RPACC) of Attica.

Furthermore, stakeholders discussed the steps that should be made in order to implement the Action and those are:

- Contacting the competent authorities for managing the alert system, the risk flooding reduction, civil protection
- Identify and address possible transferability issues
- Identify appropriate project/projects within the policy instrument that it could be integrated into complementing its scope and objectives
- Conducting tenders (services and supplies): interdisciplinary team of experts, technical data/specifications, implementation action schedule
- Implementation of practice: Elaboration of studies/services provided (hydraulic model, forecasting module, technical specifications and installation, processing & management plan for the alert system)
- Installation of systems
- Monitoring results

Also, stakeholders visited the area in Municipality of Fyli, that the early warning system will be installed.

All the interested parties state their opinions, comments, and inputs about the implementation of the Action:

Development of a pilot - research early warning system of flood in buffer zones and their participation in Interregional Workshop.

B. Recommendations of the LSG

Recommendations of the LSG for the partner

The meeting was completed with discussion and proposals regarding the difficulties that arise during the planning and development of this Action, as well as the next steps of the project, concerning stakeholder's participation in the Interregional Workshop that will take place on 15/06/2022 in Brussels.

Recommendations of the LSG about the good practices/site visits

RDFA's stakeholders selected the Good Practice: "Managing the risk of flooding on the Orleans Canal", because there were compatibility to the policy instrument, contribution to the vision and goals of RoA and transferability to Region of Attica.

C. Information Request

Request of additional information to the partnership/a particular partner

After meeting, all the participants were informed that RDFA will provide them additional material of the Interregional Workshop in Brussels.
