WINPOL Thematic Seminar 3

Innovative Models for Waste Generation Fees

23 June 2020

PAYT, KAYT...

PAYT = schemes that charge waste producer on the basis of the **actual amount of waste generated** and provide **incentives for separation at source** of recyclable waste and for **reduction of mixed waste**.

KAYT = schemes based on diverse **information, communication and nudging actions** to make the **users aware** of their **waste prevention** and **sorting** performances.

But also: “rewarded as you throw”, mixed systems...

The webinar was moderated by Francesco Lembo, ACR+

- **Part 1. Challenges, barriers and opportunities**

PAYT for hotels: pilot case implemented by the Municipality of Hersonissos, Lena Kargakis, Region of Crete

Setting waste collection prices at national level in Slovenian

Darko Bečaj, SNAGA

Part 2 – Good Practices

PAYT

- Transparent invoicing: the case of the province of Limburg (BE) | Wim Govaerts, Limburg.net
