Mehedinți County (RO) **Action Plan**

25 May 2022
Final Conference Brussels

Mehedinți County (RO)
Action Plan (Draft)

Covers improvements in the addressed Policy Instrument, for
8-PP Drobeta Turnu Severin City Hall (RO)
9-PP Mehedinți County Council (RO)

Introduction:

Change of the Policy Instrument

Initial Policy Instrument addressed:

Large Infrastructure Operational Programme (LI OP)

Priority Axis 3: Development of the environmental infrastructure in the conditions of efficient resource management /

Thematic Objective 3.1 - Reducing the number of non-compliant landfills and increasing recycling preparedness in Romania

New Policy Instrument addressed:

Mehedinti PJGD 2019-2025 (Mehedinti Waste Management County Plan) [**approved on 28 January 2020**]

WINPOL lessons learned and experience exchange partly inspired the new territorial strategy for managing waste (2019-2025) –

Indicator: new waste management plans: target: 1 (**achieved**)

Action 1:

1. Name: Collection Platforms

67 such points (one in each rural / urban UAT, except Drobeta Turnu Severin, where 2 points are proposed); estimated required area, depending on needs / location is 200-400 sqm.

2. Source of inspiration in WINPOL:

(1) Horizon 2020 “Waste4Think” – the case of Sevezo (IT) (presented video: June 2020);

(2) The experience of the Municipality of Hersonissos / Crete (GR) (presented: June 2020);

(3) two site-visits to Snaga’s installations in May 2019 during the Thematic Seminar I

3. Policy instrument involved: Mehedinti PJGD 2019-2025

4. Funding sources: Ministry of Regional Development and Public Administration / new structural funds instrument: **Large Infrastructure Operational Programme (LI OP) 2021-2027**

5. Costs: approximately 3,350,000€ (for the actual implementation). The introduction in the LI OP is costless.

6. Details of the action: 1/ Mobilise the new LIOP 2021-2027;
2/ Promote the concept to stakeholders/players & the public, in advance;
3/ Preparation of General Terms of Reference;
4/ Preparation of a unified software with separate users with rights to use for it with their local sub-systems;
5/ Preparation the Call for Proposals and submission of Proposals;
6/ Actual Implementation.

7. Players involved: The County; The Municipalities, Cities and Communities in the Country.

8. Timeframe: 2021-2025 (2027)

Action 2:

1. **Name:** Collection platforms of construction and demolition waste.

5 such sites, one in each collection area, to serve the needs of the population and of the economic agents on a radius of 50 km. The minimum surface necessary for such a platform is 4000 sqm.

2. **Source of inspiration in:** site-visits to Snaga's installations in May 2019 during the Thematic Seminar I

3. **Policy instrument involved:** Mehedinti PJGD 2019-2025

4. **Funding sources:** Ministry of Regional Development and Public Administration / new structural funds instrument: Large Infrastructure Operational Programme (LI OP) 2021-2027

5. Costs: approximately 5,000,000€ (for the actual implementation).
The introduction in the LI OP is costless.

6. Details of the action: 1/ Mobilise the new LIOP 2021-2027;
2/ Promote the concept to the citizens and professionals (hotels; restaurants; etc.) and other stakeholders/players and the public, in advance;
3/ Preparation of General Terms of Reference;
4/ Preparation the Call for Proposals and submission of Proposals;
5/ Actual Implementation.

7. Players involved: The County; The Municipalities, Cities and Communities in the Country; the professionals and the citizens.

8. Timeframe: 2021-2025 (2027)

Action 3:

1. **Name:** Prevention of the generation of household waste – training the primary and secondary school students

2. **Source of inspiration:** (1) –partly- EMULSA Citizen ReuseApp (ES) (presented: May 2019);
(2) –partly- G´scheid feiern Party Smart in Styria (AT) (presented: May 2019);
(3) RethinkWaste (Life programme) – Know as you throw (KAYT) (IT) (presented video: June 2020);

3. **Policy instrument involved:** Mehedinti PJGD 2019-2025

4. **Funding sources:** Ministry of Regional Development and Public Administration / new structural funds instrument: [Large Infrastructure Operational Programme \(LI OP\) 2021-2027](#)

5. Costs: approximately 500,000€ (for the actual implementation).

The introduction in the LI OP is costless.

6. Details of the action: 1/ Mobilise the new LIOP 2021-2027;

2/ Promote the concept to local directorates of education and directors of schools, in advance;

3/ preparation of a specialised mobile app for the activities with the students (could include or be upgraded to be used with other initiatives like reusable items database, etc.);

4/ Preparation of General Terms of Reference;

5/ Preparation the Call for Proposals and submission of Proposals;

6/ Actual Implementation.

7. Players involved: The County; Directorates of Education and Schools; the associations of parents and guardians of the students.

8. Timeframe: 2021-2025 (2027)
