# Adapting regional innovation policies for Industry 4.0 in manufacturing

**DIGITAL REGIONS** is an EU-funded project that focuses on Industry 4.0 or Factory 4.0 into the manufacturing sector. Our main purpose is to exchange good practices between partner regions and improve effective cooperation between companies/SMEs, development agencies and institutes of technology. The project brings together partners from Ireland, Slovenia, Bulgaria, Romania, Portugal, Germany, Spain and Switzerland.

## Are you ready to get inspired by Switzerland?

Swiss Smart Factory presents the story of the Switzerland Innovation Park Biel/Bienne and local manufacturing good practices.
