RFC Recapture the Fortress Cities is an Interreg Europe project that aims to develop strategies to sustainably restore, maintain, and exploit urban forts and fortified cities. It will generate smart ways to capitalise on military heritage and bring fortresses back into the lives of cities.

RFC 1st phase is coming to the end

On 19 and 20 April, the RFC Project held the dissemination conference and the second Policy Improvement Workshop in the province of Teruel. From now on, partners will work on their action plans during the next year.

Discover our Dissemination Conference and 2nd Policy Improvement Workshop

On the first of the two days partners travelled to the walled town of Albarracín where the Dissemination Conference took place. Partners presented the action plans that they are committed to carrying out during the next months. On the second day, they discussed the state of the art of policies in the project partners' territories

If you have missed the Conference, you can watch it fully here!

[More info](#)

The regional television of Aragón interviewed some of the partners. Don't miss it!

From now on, it is the time for the Action Plans

The Action Plan is a document providing details on how the lessons learnt and exchange of experience from the interregional cooperation will be exploited in order to improve the regional policy instruments. The Action Plan specifies the nature of the actions to be implemented, their time frame, stakeholders involved, the costs and funding sources. **In this video, you can see a summary of what action plans are about!**
