

## EMOBICITY – Open information day

### *MINUTES*

In line with the Project proposal, one **Open information event** should be organized at each participating country. The purpose of the event is project dissemination at the general public for awareness raising regarding e-mobility, sustainable mobility and RES into the energy mix for e-vehicles charging.

Therefore, the EIHP organized the Open information day at the end of the 6<sup>th</sup> project semester:

Title: **Open information day**

Date: **7.7.2022.**

Time: **14:00 – 16:30**

Place: **EIHP, Savska cesta 163, Zagreb**

Host: **Energy institute Hrvoje Požar, Savska cesta 163, 10000 Zagreb, Croatia**

This document brings out the Minutes of meeting accompanied with three Annexes:

1. Invitation letter,
2. Attendance list,
3. Event photos,
4. Social media posting

## Minutes of meeting

The invitation to the Open info day of the EMOBICITY project was sent to a number of relevant institutions such as policy makers, EU policy making associations, private enterprises related to EV infrastructure development and operation, car dealers, cities and municipalities, the academic community and students, and other wider audiences. Also, internal colleagues from EIHP from different departments who are not familiar with the EMOBICITY project were invited.

This event was an opportunity for the wider community of interested parties to learn about the achievements of the EMOBICITY project achieved so far, as well as the results expected during the next phase of the project.

The event was structured in several parts as follows:

- Registration of participants, welcome and opening speech,
- Presenting the EMOBICITY project through certain elements,
- Time for socializing and discussion with an accompanying networking lunch (food and refreshments),
- Small exhibition event: introduction to four EV models of different generations and manufacturers with socializing and discussion (in front of the EIHP building),

Through the presentation of the EMOBICITY project, EIHP experts involved in the project implementation gave a special focused on:

- examples of good practice from the project's partner countries,
- study visits as part of the project,
- expert analyses made as part of the project.

The total number of registered participants is 21. The structure of participants at the Open info day in terms of their position/organization and role was as follows:

Category	Institution/organization	Description
<b>Policy makers</b>	The Environmental Protection and Energy Efficiency Fund (EPEEF)	The organization responsible for implementing the incentive policy to develop emobility.
	City of Zagreb	City department involved in the implementation of projects for sustainable mobility
	Dalmatia-split County	Representative responsible for energy and sustainable transport management
<b>Research institution</b>	EIHP	Host institution
	Hydrogen Europe	Hydrogen Europe is the leading organization representing European based companies and stakeholders that are committed to moving towards a (circular) carbon neutral economy.
<b>EV charging infrastructure deployment and operation</b>	Piraex d.o.o (TSG), Kempower, HEP d.d.	Representative of business sector performing the EV charging point deployment and operation (CPO, MSP)
<b>EV car dealer</b>	Grand auto	Car dealer that offers more electric vehicles and is involved in the process of awarding incentives for EVs
<b>Academic community</b>	The Faculty of Mechanical Engineering and Naval Architecture (FAMENA)	Student

In the end, all those present expressed their praise for the organization of such event, which provided them with a lot of new and useful information and brought them closer to certain aspects of the development of e-mobility.

In addition, they were given the opportunity to familiarize themselves with the technological and design characteristics of several electric vehicles on the spot and feel the full user experience.

## Annex 1 – Invitation letter

### EMOBICITY *Open information day*

Poštovani,

Pozivamo Vas na Dan informiranja EMOBICITY projekta koji će se održati u četvrtak **7. srpnja 2022. godine u 14:00** u prostorijama Energetskog instituta Hrvoje Požar (EIHP), adresa Savska cesta 163, 10 000 Zagreb.!

EMOBICITY je projekt sklopu Interreg Europe programa čija je provedba započela 2019. godine, a ima za cilj poboljšanje i unaprjeđenje instrumenata politike relevantnih za područje e-mobilnosti.

U protekle tri godine provedbe odrađen je niz zanimljivih aktivnosti koje obuhvaćaju izradu stručnih analiza, održavanje tematskih radionica, okupljanja lokalne grupe dionika te studijske posjete. Također, jedna od ključnih aktivnosti je prepoznavanje primjera dobrih praksi koje mogu poslužiti kao inspiracija za unaprjeđenje politike i provedbu mjera koje će doprinijeti bržem i boljem razvoju svih aspekata emobilnosti.

Stoga Vas pozivamo da nam se pridružite na Danu informiranja te saznate koje su to dobre prakse prepoznate u sklopu projekta te koji je doprinos EMOBICITY projekta razvoju emobilnosti u Republici Hrvatskoj.

Za više informacija o projektu posjetite [POVEZNICU](#).

#### Agenda

14:00-14:10	<b>Registracija</b>	
14:10-14:20	<b>Uvodna riječ</b>	<i>EIHP</i>
14:20-14:35	<b>EMOBICITY – općenito o projektu</b>	<i>Bruno Židov (EIHP)</i>
14:35-14:50	<b>Primjeri dobre prakse iz zemalja partnera projekta</b>	<i>Tomislav Čop (EIHP)</i>
14:50-15:05	<b>Studijske posjete u sklopu EMOBICITY projekta</b>	<i>Robert Fabek (EIHP)</i>
15:05-15:20	<b>Stručne analize napravljene u sklopu EMOBICITY</b>	<i>Bruno Židov (EIHP)</i>
15:20-15:45	<b>Pitanja sudionika i rasprava</b>	<i>Svi sudionici, Moderator: Robert Fabek (EIHP)</i>
15:45-16:30	<b>„Networking lunch“</b>

U prostorijama #EIHP jučer je održan Dan informiranja **EMOBICITY Project** iz kojeg stoje naši stručnjaci **Bruno Židov** i **Tomislav Čop**, a ispred instituta imali smo i lijepi e-vozni park. 🚗 😊

#EMOBICITY je projekt u sklopu **Interreg Europe** programa čija je provedba započela 2019. godine, a ima za cilj poboljšanje i unaprjeđenje instrumenata politike relevantnih za područje e-mobilnosti.

U protekle tri godine provedbe odrađen je niz zanimljivih aktivnosti koje obuhvaćaju izradu stručnih analiza, održavanje tematskih radionica, okupljanja lokalne grupe dionika te studijske posjete. Također, jedna od ključnih aktivnosti je prepoznavanje primjera dobrih praksi koje mogu poslužiti kao inspiracija za unaprjeđenje politike i provedbu mjera koje će doprinijeti bržem i boljem razvoju svih aspekata e-mobilnosti.
