

STAKEHOLDER ENGAGEMENT REPORT

Fryslan, 8 July 2022

Stakeholder event/engagement 11 semester 6

Consultation organized by *Fryslan*

Number of participants: 3

Typologies of stakeholder involved:

Public Sector

REPORT OF THE DISCUSSION

Discovering new circular opportunities in the Operational Programme ERDF 2022

For ENGAGEMENT: present methodology used (in-person interview, phone interview, group interview etc)

CONCLUSIONS

Together with the provinces of Groningen and Drenthe, the province of Fryslan is responsible for the successful implementation of Regional Research and Innovation Strategy for Smart Specialisation (RIS3). The RIS3 has been translated one-to-one in the Northern Netherlands into the ERDF programme. This means that circular economy plays a central role. Together, we now want to discover where the opportunities for smart specialisation within circular economy actually lie for the region. Here, we draw inspiration, among other things, from the REPLACE project where it comes to developing value chains. These outcomes were discussed in this stakeholder meeting.

PARTICIPATING STAKEHOLDERS

Province of Drenthe

Province of Groningen
